# SUBJECT INDEX

***Acantharia chaetomoides***
Taiwan fungi: new species and new records of ascomycetes 917
***Acanthostigmella brevispina***
A molecular-morphotaxonomic approach to the systematics of the Herpotrichiellaceae and allied black yeasts 897
***Acaulospora koskei***
*Acaulospora koskei*, a new species of Glomales from Poland 237
***Acremonium***
Invertase activity in *Epichloë/Acremonium* fungal endophytes and its possible role in choke disease 867
***Acremonium coenophialum***
Variation in the ability of *Acremonium* endophytes of *Lolium perrene, Festuca arundinacea* and *F. pratensis* to form compatible associations in the three grasses 466
***Acremonium lolii***
Variation in the ability of *Acremonium* endophytes of *Lolium perrene, Festuca arundinacea* and *F. pratensis* to form compatible associations in the three grasses 466
***Acremonium uncinatum***
Variation in the ability of *Acremonium* endophytes of *Lolium perrene, Festuca arundinacea* and *F. pratensis* to form compatible associations in the three grasses 466
***Aecidium lantanae***
The mycobiota of the weed *Lantana camara* in Brazil, with particular reference to biological control 769
**Aflatoxins**
Mycobiota and mycotoxins in herbal drugs of Indian pharmaceutical industries 697
***Agaricus subfloccosus***
Variation in morphology, growth and fructification of isolates of the *Agaricus subfloccosus* complex 1453
***Alboleptonia aurantium***
The genus *Entoloma* in Kerala State, India 1083
***Alboleptonia graveolans***
The genus *Entoloma* in Kerala State, India 1083
***Aleuria aurata***
Notes on British taxa referred to *Aleuria* 1515
***Aleuria cerea***
Notes on British taxa referred to *Aleuria* 1515
***Aleuria granulosa***
Notes on British taxa referred to *Aleuria* 1515
***Aleuria insolata***
Notes on British taxa referred to *Aleuria* 1515
***Aleuria isabellina***
Notes on British taxa referred to *Aleuria* 1515
***Aleuria lilacina***
Notes on British taxa referred to *Aleuria* 1515
***Aleuria mellea***
Notes on British taxa referred to *Aleuria* 1515
***Aleuria muralis***
Notes on British taxa referred to *Aleuria* 1515
***Aleuria petaloidea***
Notes on British taxa referred to *Aleuria* 1515
***Aleuria recedens***
Notes on British taxa referred to *Aleuria* 1515
***Aleuria reperta***
Notes on British taxa referred to *Aleuria* 1515
***Aleuria rhenana***
Notes on British taxa referred to *Aleuria* 1515
***Aleuria subcitrina***
Notes on British taxa referred to *Aleuria* 1515
***Aleuria subrepanda***
Notes on British taxa referred to *Aleuria* 1515
***Aleuria umbrina***
Notes on British taxa referred to *Aleuria* 1515
***Aleuria undata***
Notes on British taxa referred to *Aleuria* 1515
***Alternaria alternata***
Comparison of nuclear ribosomal DNA sequences from *Alternaria* species pathogenic to crucifers 604
***Alternaria brassicae***
Comparison of nuclear ribosomal DNA sequences from *Alternaria* species pathogenic to crucifers 604
***Alternaria brassicicola***
Comparison of nuclear ribosomal DNA sequences from *Alternaria* species pathogenic to crucifers 604
***Alternaria raphani***
Comparison of nuclear ribosomal DNA sequences from *Alternaria* species pathogenic to crucifers 604
***Amanita gemmata***
Observations on the phenology of ten fungal species in the subtropical forests at Xalapa, Mexico 54
***Amanita virosa***
Observations on the phenology of ten fungal species in the subtropical forests at Xalapa, Mexico 54
**Amino acids**
Factors affecting amino acid uptake by the ectomycorrhizal fungus *Paxillus involutus* 1131
***Amphiporthe leiphaemia***
Fungal assemblages in stem and twig lesions of *Quercus robur* in Switzerland 534
***Ampulliferinites axelheibergi***
Some fossil fungal form-taxa from the Maastrichtian and Palaeogene ages 513
**Anaerobic fungi**
Demonstration of zoosporangia of anaerobic fungi on plant residues recovered from faeces of cattle 471
**Anastomosis groups**
DNA probe specific to *Rhizoctonia solani* anastomosis group 8 745
***Anhellia lantanae***
The mycobiota of the weed *Lantana camara* in Brazil, with particular reference to biological control 769
***Anthostoma vincensii***
Taiwan fungi: new species and new records of ascomycetes 917
***Anthostomella rostrospora***
Taiwan fungi: new species and new records of ascomycetes 917
***Anthostomella taiwanensis***
Taiwan fungi: new species and new records of ascomycetes 917
***Anthracobia macrocystis***
Notes on British species of *Anthracobia* 1519
***Anthracobia maurilabra***
Notes on British species of *Anthracobia* 1519
***Anthracobia melanoma***
Notes on British species of *Anthracobia* 1519
***Anthracobia nitida***
Notes on British species of *Anthracobia* 1519
***Anthracobia uncinata***
Notes on British species of *Anthracobia* 1519
**Antibiotic activity**
Biologically active secondary metabolites of endophytic *Pezicula* species 1007

**Antifungal activity**
Inhibition of polyamine biosynthesis in fungi 129
The antifungal properties of *Minimedusa polyspora* 337
The fungistatic and fungicidal activity of vinclozolin against *Botrytis cinerea* 1041

**Antiviral agents**
Swainsonine production by *Metarhizium anisopliae* determined by means of an enzymatic assay 1078

***Antrodia cinnamomea***
*Antrodia cinnamomea* sp. nov. on *Cinnamomum kanehirai* in Taiwan 756

***Aphanomyces astaci***
Physiological adaptation of an *Aphanomyces astaci* strain isolated from the freshwater crayfish *Procambarus clarkii* 574

***Apioplagiostoma populi***
*Maculatipalma fronsicola* gen. et sp. nov. causing leaf spots on palm species in north Queensland with descriptions of related genera: *Apioplagiostoma* and *Plagiostoma* 727

***Aplopsora hennenii***
*Aplopsora hennenii* sp. nov., the first rust fungus recorded from Vochysiaceae 914

**Appressoria**
*In vitro* formation and survival of appressoria of a mycoherbicide agent, *Colletotrichum gloeosporioides* f. sp. *malvae* 1103

**Aquatic fungi**
A critical assessment of the validity of ergosterol as an indicator of fungal biomass 479

***Ardhachandra prolatofusiformis***
A new species of *Ardhachandra* from Taiwan 364

***Armillaria gallica***
Fractal geometry of diffuse mycelia and rhizomorphs of *Armillaria* species 81
Genetic exchange between diploid and haploid mycelia of *Armillaria gallica* 641

***Armillaria luteobubalina***
*Armillaria luteobubalina* population structure in horticultural plantings in Victoria, Australia 216
Effects of the cord-forming saprotrophs *Hypholoma australe* and *Phanerochaete filamentosa* and of ammonium sulphamate on establishment of *Armillaria luteobubalina* on stumps of *Eucalyptus diversicolor* 951
Effects of *Tricholoma* spp. and ammonium sulphamate on establishment of *Armillaria luteobubalina* on stumps of *Eucalyptus diversicolor* 957

***Armillaria ostoyae***
Fractal geometry of diffuse mycelia and rhizomorphs of *Armillaria* species 81
Chitinolytic enzymes of pathogenic and ectomycorrhizal fungi 935

***Armillaria tabescens***
Observations on the phenology of ten fungal species in the subtropical forests at Xalapa, Mexico 54

***Arthonia molendoi***
DNA isolation from lichen ascomata 1321

***Arthrobotrys cladodes***
Unusual germination of spores of *Arthrobotrys conoides* and *A. cladodes* 981

***Arthrobotrys conoides***
Unusual germination of spores of *Arthrobotrys conoides* and *A. cladodes* 981

***Arthrobotrys oligospora***
A conidial trap-forming mutant of *Arthrobotrys oligospora* 1395

**Aryl-alcohol oxidase**
Screening of 68 species of basidiomycete for enzymes involved in lignin degradation 37

**Ascocarp development**
Translocation and metabolism of phosphate following absorption by the ascocarps of *Tuber melanosporum* and *T. aestivum* 167

***Ascocoryne cylichnium***
Ultrastructure of the ascus apical apparatus in species of *Cenangium, Encoelia, Claussenomyces* and *Ascocoryne* 187

**Ascomycetes**
A re-appraisal of the systematic status of the ascomycete genus *Yoshinagaia* 1295

**Ascospore morphology**
Ultrastructure of asci and ascospores of two mangrove fungi: *Swampomyces armeniacus* and *Marinosphaera mangrovei* 1465

**Ascus structure**
Ultrastructure of the ascus apical apparatus in species of *Cenangium, Encoelia, Claussenomyces* and *Ascocoryne* 187

***Aspergillus***
Phylogenetic analysis of *Aspergillus* sections *Cremei* and *Wentii*, based on ribosomal DNA sequences 1349

***Aspergillus flavus***
Mycobiota and mycotoxins in herbal drugs of Indian pharmaceutical industries 697

***Aspergillus niger***
Solubilization of insoluble metal compounds by soil fungi: development of a screening method for solubilizing ability and metal tolerance 987

***Aspergillus ochraceus***
Mycobiota and mycotoxins in herbal drugs of Indian pharmaceutical industries 697

***Aspergillus parasiticus***
Mycobiota and mycotoxins in herbal drugs of Indian pharmaceutical industries 697

***Asperisporium mikaniae***
The mycobiota of the weed *Mikania micrantha* in southern Brazil with particular reference to fungal pathogens for biological control 343

***Asperisporium mikaniigena***
The mycobiota of the weed *Mikania micrantha* in southern Brazil with particular reference to fungal pathogens for biological control 343

***Astacus astacus***
Physiological adaptation of an *Aphanomyces astaci* strain isolated from the freshwater crayfish *Procambarus clarkii* 574

***Astacus leptodactylus***
Physiological adaptation of an *Aphanomyces astaci* strain isolated from the freshwater crayfish *Procambarus clarkii* 574

***Asteromella tiliae***
Leaf blotch of lime associated with *Asteromella tiliae* comb. nov. and the latter's connection to *Didymosphaeria petrakiana* 1191

***Astrosphaeriella fronsicola***
*Astrosphaeriella fronsicola* sp. nov. associated with leaf spots of *Oraniopsis* and other palms 453

**Autoradiographic analysis**
Translocation and metabolism of phosphate following absorption by the ascocarps of *Tuber melanosporum* and *T. aestivum* 167

**Ballistospore discharge**
Mannitol and hexoses are components of Buller's drop 833

**Basidiocarp development**
Variation in *Pisolithus* based on basidiome and basidiospore morphology, culture characteristics and analysis of polypeptides using 1D SDS–PAGE 1
Variation in morphology, growth and fructification of isolates of the *Agaricus subfloccosus* complex 1453

**Basidiomycetes**
Screening of 68 species of basidiomycete for enzymes involved in lignin degradation 37
Phylogenetic diversity of yeast-producing basidiomycetes 1205

***Basidiophora montana***
The mycobiota of the weed *Mikania micrantha* in southern Brazil with particular reference to fungal pathogens for biological control 343

**Basidiospore germination**
Types of reproductive cell in *Exidia recisa* and *Sirobasidium intermediae* 1187

**Basidiospore structure**
Variation in *Pisolithus* based on basidiome and basidiospore morphology, culture characteristics and analysis of polypeptides using 1D SDS–PAGE 1

***Beauveria bassiana***
The rodlet layer from aerial and submerged conidia of the entomogenous fungus *Beauveria bassiana* contains hydrophobin 403

**Beauvericin**
Beauvericin production by *Fusarium subglutinans* from different geographical areas 282

**Benomyl**
Rapid identification of benomyl resistant strains of *Botrytis cinerea* using the polymerase chain reaction 1483

***Bertia biseptata***
Taiwan fungi: new species and new records of ascomycetes 917

***Betula pubescens***
The performance of the autumnal moth is lower on trees infected by birch rust 994

**Biological control**
The mycobiota of the weed *Mikania micrantha* in southern Brazil with particular reference to fungal pathogens for biological control 343
Mycobionts of the weed *Cyperus rotundus* in the state of Rio de Janeiro, with an elucidation of its associated *Puccinia* complex 407
Mycobiota of the giant sensitive plant, *Mimosa pigra sensu lato* in the Neotropics 420
The mycobiota of the weed *Lantana camara* in Brazil, with particular reference to biological control 769

Liquid culture production of microsclerotia of *Colletotrichum truncatum* for use as bioherbicidal propagules 879
The germination behaviour of *Metarhizium anisopliae* on the surface of aphid and flea beetle cuticles 945
Effects of the cord-forming saprotrophs *Hypholoma australe* and *Phanerochaete filamentosa* and of ammonium sulphamate on establishment of *Armillaria luteobubalina* on stumps of *Eucalyptus diversicolor* 951
Effects of *Tricholoma* spp. and ammonium sulphamate on establishment of *Armillaria luteobubalina* on stumps of *Eucalyptus diversicolor* 957
The ability of the mycoparasite *Verticillium biguttatum* to infect *Rhizoctonia solani* and other plant parasites 997
*In vitro* formation and survival of appressoria of a mycoherbicide agent, *Colletotrichum gloeosporioides* f. sp. *malvae* 1103
Behaviour of zoospore cysts of the mycoparasite *Pythium oligandrum* in relation to their potential for biocontrol of plant pathogens 1417

**Biomass**
The use of phospholipid and neutral lipid fatty acids to estimate biomass of arbuscular mycorrhizal fungi in soil 623

***Bipolaris maydis***
Genetic analysis of *Cochliobolus heterostrophus* beige mutant 621

***Bipolaris sorokiniana***
Comparison of xylanase production by fungal pathogens of barley with special reference to *Bipolaris sorokiniana* 717

***Boletinus cavipes***
Chitinolytic enzymes of pathogenic and ectomycorrhizal fungi 935

***Botrytis cinerea***
*Thrips obscuratus* as a potential vector of *Botrytis cinerea* in kiwifruit 267
Sensitive staining of fungal extracellular matrices using colloidal gold 567
The fungistatic and fungicidal activity of vinclozolin against *Botrytis cinerea* 1041
Effect of humidity on infection of rose petals by dry-inoculated conidia of *Botrytis cinerea* 1303
Presence of double-stranded RNA and virus-like particles in *Botrytis cinerea* 1472
Rapid identification of benomyl resistant strains of *Botrytis cinerea* using the polymerase chain reaction 1483

***Brachysporisporites endophragmia***
Some fossil fungal form-taxa from the Maastrichtian and Palaeogene ages 513

**Buller's drop**
Mannitol and hexoses are components of Buller's drop 833

***Caecomyces***
Demonstration of zoosporangia of anaerobic fungi on plant residues recovered from faeces of cattle 471

**Calcofluor white PMS**
The occurrence of calcofluor and lectin-binding polysaccharides in the outer wall of arbuscular mycorrhizal fungal spores 1249

***Calonema luteolum***
Taxonomic evaluation of the myxomycete *Calonema luteolum* 311

***Calyptrozyma arxii***
A new pleomorphic ascomycete, *Calyptrozyma arxii* gen. et sp. nov., isolated from the human lower oesophagus 1239

***Candida albicans***
Use of a real-time fluorescent probe to study the electrostatic properties of the cell surface of *Candida albicans* 969

***Capronia acutiseta***
A molecular-morphotaxonomic approach to the systematics of the Herpotrichiellaceae and allied black yeasts 897

***Capronia epimyces***
A molecular-morphotaxonomic approach to the systematics of the Herpotrichiellaceae and allied black yeasts 897

***Capronia moravica***
A molecular-morphotaxonomic approach to the systematics of the Herpotrichiellaceae and allied black yeasts 897

***Capronia parasitica***
A molecular-morphotaxonomic approach to the systematics of the Herpotrichiellaceae and allied black yeasts 897

**Carbendazim**
The segregation of resistance to carbendazim in sexual progeny of *Monilinia fructicola* 677

**Carbohydrate utilization**
Glucose catabolism pathways in *Lentinula edodes* determined with radiorespirometry and enzymic analysis 859
Utilization of sucrose by *Hymenoscyphus ericae* (an ericoid endomycorrhizal fungus) and ectomycorrhizal fungi 1233

***Castanea sativa***
*In planta* immunolabelling of three types of peripheral vesicles in cells of *Phytophthora cinnamomi* infecting chestnut roots 1281

**Cell wall composition**
Isolation, purification and chemical characterization of alkali-extractable polysaccharides from the cell walls of *Talaromyces* species 69
Influence of aeration and [*rho*$^0$] mutation on the structure of the cell walls of *Saccharomyces cerevisiae* and *S. diastaticus* 492
Use of a real-time fluorescent probe to study the electrostatic properties of the cell surface of *Candida albicans* 969

***Cenangium ferruginosum***
Ultrastructure of the ascus apical apparatus in species of *Cenangium*, *Encoelia*, *Claussenomyces* and *Ascocoryne* 187

***Ceratobasidium cornigerum***
DNA probe specific to *Rhizoctonia solani* anastomosis group 8 745

***Ceratobasidium lantanae-camarae***
The mycobiota of the weed *Lantana camara* in Brazil, with particular reference to biological control 769

***Ceratocystis autographa***
Conidium development in *Ceratocystis autographa* 1289

**Cerato-ulmin**
Naturally occurring non cerato-ulmin producing mutants of *Ophiostoma novo-ulmi* are pathogenic but lack aerial mycelium 436
Effect of d-factors on *in vitro* cerato-ulmin production by the Dutch elm disease pathogen *Ophiostoma novo-ulmi* 1211

***Cercospora caricis***
Mycobionts of the weed *Cyperus rotundus* in the state of Rio de Janeiro, with an elucidation of its associated *Puccinia* complex 407

***Cercospora mikaniacola***
The mycobiota of the weed *Mikania micrantha* in southern Brazil with particular reference to fungal pathogens for biological control 343

***Cercosporella hypoestes***
*Cercospora* species and similar fungi of South Africa 31

***Chaetendophragmia triangularia***
A *Selenosporella* synanamorph associated with *Chaetendophragmia triangularia* 667

***Chaetosphaeria capitata***
*Pseudofuscophialis lignicola* gen. et sp. nov. and *Chaetosphaeria capitata* sp. nov. from wood in Taiwan 711

***Chaetosphaeria glauca***
Teleomorph-anamorph connections in Ascomycetes: the anamorphs of three species of *Chaetosphaeria* 585

***Chaetosphaeria myriocarpa***
Teleomorph-anamorph connections in Ascomycetes: the anamorphs of three species of *Chaetosphaeria* 585

***Chaetosphaeria ovoidea***
Teleomorph-anamorph connections in Ascomycetes: the anamorphs of three species of *Chaetosphaeria* 585

***Chaetosphaeria vermicularioides***
Teleomorph-anamorph connections in Ascomycetes: the anamorphs of three species of *Chaetosphaeria* 585

***Chaunopycnis alba***
Intraspecific genetic diversity of *Chaunopycnis alba* detected by random amplified polymorphic DNA assay 681

***Chaunopycnis ovalispora***
Intraspecific genetic diversity of *Chaunopycnis alba* detected by random amplified polymorphic DNA assay 681

**Chemostat cultures**
Evolution of *Fusarium graminearum* A3/5 grown in a series of glucose-limited chemostat cultures at a high dilution rate 173

**Chemotaxonomy**
Isolation, purification and chemical characterization of alkali-extractable polysaccharides from the cell walls of *Talaromyces* species 69
Metabolite profiles of common *Stemphylium* species 672
Characterization of volatile metabolites from 47 *Penicillium* taxa 1153
Chemosystematics of *Penicillium* based on profiles of volatile metabolites 1167

**Chitin**
The dynamics of hyphal growth 385

**Chitinolytic activity**
New components of the chitinolytic system of *Trichoderma harzianum* 441
Chitinolytic enzymes of pathogenic and ectomycorrhizal fungi 935

***Cinnamomum kanehirai***
*Antrodia cinnamomea* sp. nov. on *Cinnamomum kanehirai* in Taiwan 756

***Cintractia axicola***
Blastoconidium production from conjugated basidial cells in *Cintractia* 140

***Cintractia limitata***
Mycobionts of the weed *Cyperus rotundus* in the state of Rio de Janeiro, with an elucidation of its associated *Puccinia* complex 407
***Cintractia peribebuyensis***
Blastoconidium production from conjugated basidial cells in *Cintractia* 140
**Citrinin**
Mycobiota and mycotoxins in herbal drugs of Indian pharmaceutical industries 697
***Cladosporium cucumerinum***
Effect of the microtubule inhibitor methyl benzimidazole-2-yl carbamate (MBC) on protein secretion and microtubule distribution in *Cladosporium cucumerinum* 43
***Claussenomyces atrovirens***
Ultrastructure of the ascus apical apparatus in species of *Cenangium, Encoelia, Claussenomyces* and *Ascocoryne* 187
***Clitocybe***
Enhancement of nitrification rates *in vitro* by interacting species of saprotrophic fungi 1128
***Cochliobolus heterostrophus***
Genetic analysis of *Cochliobolus heterostrophus* beige mutant 621
***Cocos nucifera***
*Mycosphaerella palmicola* associated with leaf spots of *Cocos nucifera* in Australia, Irian Jaya and Papua New Guinea 704
***Coffea arabica***
The effects of the fungicide Bayfidan on infection structure formation by *Hemileia vastatrix* in *Coffea arabica* cv. Caturra 793
Teliospores of *Hemileia vastatrix* 932
***Coleophoma cylindrosporum***
Pycnidium ontogeny in *Coleophoma cylindrosporum* 693
***Colletotrichum acutatum***
Differentiation of *Colletotrichum* species responsible for anthracnose of strawberry by arbitrarily primed PCR 501
***Colletotrichum coccodes***
The influence of isolation procedure on recovery of *Verticillium* species and *Colletotrichum coccodes* from colonised potato stems 942
***Colletotrichum fragariae***
Differentiation of *Colletotrichum* species responsible for anthracnose of strawberry by arbitrarily primed PCR 501
***Colletotrichum gloeosporioides***
Differentiation of *Colletotrichum* species responsible for anthracnose of strawberry by arbitrarily primed PCR 501
Sensitive staining of fungal extracellular matrices using colloidal gold 567
*In vitro* formation and survival of appressoria of a mycoherbicide agent, *Colletotrichum gloeosporioides* f. sp. *malvae* 1103
Factors affecting pathogenicity of a benomyl-resistant strain of *Colletotrichum gloeosporioides* f. sp. *malvae* 1108
Distribution and relationship of chromosome-specific dispensible DNA sequences in diverse isolates of *Colletotrichum gloeosporioides* 1325
***Colletotrichum graminicola***
rDNA sequence analysis confirms the distinction between *Colletotrichum graminicola* and *C. sublineolum* 475
***Colletotrichum lindemuthianum***
Analysis of diverse isolates of *Colletotrichum lindemuthianum* infecting common bean using molecular markers 429
***Colletotrichum sublineolum***
rDNA sequence analysis confirms the distinction between *Colletotrichum graminicola* and *C. sublineolum* 475
***Colletotrichum truncatum***
Liquid culture production of microsclerotia of *Colletotrichum truncatum* for use as bioherbicidal propagules 879
**Colony differentiation**
Mycelial density profiles of fungi on heterogenous media and their interpretation in terms of nutrient reallocation patterns 143
**Community structure**
Yeast communities associated with different plant resources in sandy coastal plains of southeastern Brazil 1047
Dominance and diversity of the fungal communities on fir needles 1439
**Compatibility types**
Genetic variation among a world-wide collection of isolates of *Fusarium oxysporum* f. sp. *cubense* analysed by RAPD-PCR fingerprinting 1378
**Conidia**
The rodlet layer from aerial and submerged conidia of the entomogenous fungus *Beauveria bassiana* contains hydrophobin 403
**Conidial germination**
The germination behaviour of *Metarhizium anisopliae* on the surface of aphid and flea beetle cuticles 945
**Conidial morphology**
Conidiogenesis and morphology of *Melanconium juglandinum* 1059
**Conidiogenesis**
Conidiogenesis and morphology of *Melanconium juglandinum* 1059
Conidium development in *Ceratocystis autographa* 1289
***Coprinus cinereus***
Glucose catabolism pathways in *Lentinula edodes* determined with radiorespirometry and enzymic analysis 859
***Coprinus psychromorbidus***
Grouping and identification of low temperature basidiomycetes using mating, RAPD and RFLP analysis 297
***Corchorus capsularis***
A new species of *Septocyta* from India 166
***Cordyceps brunneapunctata***
*Cordyceps brunneapunctata* sp. nov. infecting beetle larvae in Tailand 1195
***Cordyceps cylindrica***
*Cordyceps cylindrica* and its association with *Nomuraea atypicola* in Tailand 809
***Cordyceps entomorrhiza***
Observations on the phenology of ten fungal species in the subtropical forests at Xalapa, Mexico 54
***Cordyceps nutans***
Notes on *Cordyceps nutans* and its anamorph, a pathogen of hemipteran bugs in Thailand 724
***Cordyceps sphecocephala***
*Cordyceps sphecocephala* and a *Hymenostilbe* sp. infecting wasps and bees in Thailand 154
***Coremiopleurotus***
*Pleurotus cystidiosus* var. *formosensis* var. nov.: an unusual *Pleurotus* collection of subgenus *Coremiopleurotus* from Taiwan 1479
***Coryneum populinum***
Further observations on *Pollacia mandshurica*, a pathogen of *Populus* spp. in China 983
**Cryptosporiopsin**
Biologically active secondary metabolites of endophytic *Pezicula* species 1007
***Cryptosporiopsis***
Biologically active secondary metabolites of endophytic *Pezicula* species 1007
***Cryptosporiopsis eucalypti***
*Cryptosporiopsis eucalypti* sp. nov., causing leaf spots of eucalypts in Australia, India and U.S.A. 827
***Cryptosporiopsis radicicola***
*Cryptosporiopsis radicicola* sp. nov. from roots of *Quercus robur* 663
**Cultural characteristics**
Cultural degeneration in two *Fusarium* species and its effects on toxigenicity and cultural morphology 615
**Cyclosporin A**
Intraspecific genetic diversity of *Chaunopycnis alba* detected by random amplified polymorphic DNA assay 681
***Cyperus rotundus***
Mycobionts of the weed *Cyperus rotundus* in the state of Rio de Janeiro, with an elucidation of its associated *Puccinia* complex 407
***Dactylaria higginsii***
Mycobionts of the weed *Cyperus rotundus* in the state of Rio de Janeiro, with an elucidation of its associated *Puccinia* complex 407
***Dactylella formosana***
*Dactylella formosana*, a new nematode-trapping fungus from Taiwan 751
***Dahlia imperialis***
Taxonomic studies on Ustilaginales from Costa Rica 783
***Dendryphiella aspera***
The mycobiota of the weed *Lantana camara* in Brazil, with particular reference to biological control 769
**Desert truffles**
Notes on the Kalahari desert truffle, *Terfezia pfeilii* 874
***Diabole cubensis***
Mycobiota of the giant sensitive plant, *Mimosa pigra sensu lato* in the Neotropics 420
***Diaporthe adunca***
Taxonomy, sexuality and mating types of *Diaporthe adunca* 1409
***Dicellaesporites delitschiapites***
Some fossil fungal form-taxa from the Maastrichtian and Palaeogene ages 513
***Dichomera saubinetii***
Fungal assemblages in stem and twig lesions of *Quercus robur* in Switzerland 534
***Didymosphaeria petrakiana***
Leaf blotch of lime associated with *Asteromella tiliae* comb. nov. and the latter's connection to *Didymosphaeria petrakiana* 1191

***Diorchidiella verlandii***
A new species of *Diorchidiella* with a spermogonial state 885
***Diporicellaesporites icebergi***
Some fossil fungal form-taxa from the Maastrichtian and Palaeogene ages 513
**Diversity**
Dominance and diversity of the fungal communities on fir needles 1439
**DNA**
DNA homology between *Pyrenophora japonica* and *P. teres* 1098
DNA isolation from lichen ascomata 1321
Distribution and relationship of chromosome-specific dispensible DNA sequences in diverse isolates of *Colletotrichum gloeosporioides* 1325
**DNA probe**
A DNA probe for identification of *Pythium irregulare* in soil 579
DNA probe specific to *Rhizoctonia solani* anastomosis group 8 745
Detection of *Rhizoctonia solani* AG-8 in soil using a specific DNA probe 1299
***Doassansiopsis limnocharidis***
Noteworthy germinations of some Costa Rican Ustilaginales 853
***Doassansiopsis nymphaeae***
Taxonomic studies on Ustilaginales from Costa Rica 783
***Doassansiopsis ticonis***
Taxonomic studies on Ustilaginales from Costa Rica 783
***Dothidea porlieriae***
Studies on biotrophic fungi from Argentina: *Microcyclus porlieriae*, with a key to South American species of *Microcyclus* 353
***Drechslera graminea***
Comparison of xylanase production by fungal pathogens of barley with special reference to *Bipolaris sorokiniana* 717
***Drechslera teres***
Comparison of xylanase production by fungal pathogens of barley with special reference to *Bipolaris sorokiniana* 717
**dsRNA**
Presence of double-stranded RNA and virus-like particles in *Botrytis cinerea* 1472
***Duosporium cyperi***
Mycobionts of the weed *Cyperus rotundus* in the state of Rio de Janeiro, with an elucidation of its associated *Puccinia* complex 407
**Dutch elm disease**
*Ophiostoma himal-ulmi* sp. nov., a new species of Dutch elm disease fungus endemic to the Himalayas 205
Naturally occurring non cerato-ulmin producing mutants of *Ophiostoma novo-ulmi* are pathogenic but lack aerial mycelium 436
Effect of d-factors on *in vitro* cerato-ulmin production by the Dutch elm disease pathogen *Ophiostoma novo-ulmi* 1211
***Dwibahubeeja***
New hyphopodiate hyphomycetes from North-Eastern Uttar Pradesh, India 395
***Dwibahubeeja indica***
New hyphopodiate hyphomycetes from North-Eastern Uttar Pradesh, India 395
**Ecology**
Mycogeography of *Fusarium* species in soils from tropical, arid and mediterranean regions of Australia 523
Survival and growth in culture of four *Fusarium* species in relation to occurrence in soils from hot climatic regions 529
**Ectomycorrhizas**
Variation in *Pisolithus* based on basidiome and basidiospore morphology, culture characteristics and analysis of polypeptides using 1D SDS–PAGE 1
Interactions between ectomycorrhizal and saprotrophic fungi on agar and in association with seedlings of lodgepole pine (*Pinus contorta*) 159
Genetic transformation of the ectomycorrhizal fungus *Paxillus involutus* by particle bombardment 557
Factors affecting amino acid uptake by the ectomycorrhizal fungus *Paxillus involutus* 1131
Abundance of *Tylospora fibrillosa* ectomycorrhizas in a South Swedish spruce forest measured by RFLP analysis of the PCR-amplified rDNA ITS region 1425
***Encoelia fimbriata***
Ultrastructure of the ascus apical apparatus in species of *Cenangium, Encoelia, Claussenomyces* and *Ascocoryne* 187
**Endophytes**
Variation in the ability of *Acremonium* endophytes of *Lolium perrene, Festuca arundinacea* and *F. pratensis* to form compatible associations in the three grasses 466
Invertase activity in *Epichloë/Acremonium* fungal endophytes and its possible role in choke disease 867
The performance of the autumnal moth is lower on trees infected by birch rust 994
Biologically active secondary metabolites of endophytic *Pezicula* species 1007
***Entoloma anamikum***
The genus *Entoloma* in Kerala State, India 1083
***Entoloma aurantium***
The genus *Entoloma* in Kerala State, India 1083
***Entoloma brihadum***
The genus *Entoloma* in Kerala State, India 1083
***Entoloma lomapadum***
The genus *Entoloma* in Kerala State, India 1083
***Entoloma mridulum***
The genus *Entoloma* in Kerala State, India 1083
***Entoloma niranjamum***
The genus *Entoloma* in Kerala State, India 1083
***Entoloma nirupanum***
The genus *Entoloma* in Kerala State, India 1083
***Entoloma shwethum***
The genus *Entoloma* in Kerala State, India 1083
***Entoloma theekshnagandhum***
The genus *Entoloma* in Kerala State, India 1083
***Entoloma vanajum***
The genus *Entoloma* in Kerala State, India 1083
**Entomogenous fungi**
*Cordyceps sphecocephala* and a *Hymenostilbe* sp. infecting wasps and bees in Thailand 154
*Torrubiella iriomoteana* from scale insects in Thailand and a new related species *Torrubiella siamensis* with notes on their respective anamorphs 330
The rodlet layer from aerial and submerged conidia of the entomogenous fungus *Beauveria bassiana* contains hydrophobin 403
Restriction fragment length polymorphism in the ribosomal RNA gene complex of isolates of the entomopathogenic fungus *Metarhizium anisopliae* 485
Notes on *Cordyceps nutans* and its anamorph, a pathogen of hemipteran bugs in Thailand 724
Two new species of *Ilyomyces* 789
Laboulbeniales parasitic on British Diptera 841
The germination behaviour of *Metarhizium anisopliae* on the surface of aphid and flea beetle cuticles 945
Protein synthesis in *Metarhizium anisopliae* growing on host cuticle 1034
*Cordyceps brunneapunctata* sp. nov. infecting beetle larvae in Tailand 1195
*Hymenostilbe ventricosa* sp. nov. a pathogen of cockroaches in Thailand 1201
***Entyloma dahliae***
Taxonomic studies on Ustilaginales from Costa Rica 783
***Entyloma doebbeleri***
Taxonomic studies on Ustilaginales from Costa Rica 783
***Epaphroconidia hawksworthii***
*Epaphroconidia hawksworthii* gen. et sp. nov., a new lichenicolous conidial fungus on *Pertusaria pertusa* in Spain 850
***Epichloë***
Invertase activity in *Epichloë/Acremonium* fungal endophytes and its possible role in choke disease 867
***Epirrita autumnata***
The performance of the autumnal moth is lower on trees infected by birch rust 994
**Ergosterol**
A critical assessment of the validity of ergosterol as an indicator of fungal biomass 479
***Erysiphe graminis***
Ultrastructural studies of the effects of tetraconizole on the barley-powdery mildew host pathogen complex 799
Sensitive staining of fungal extracellular matrices using colloidal gold 567
***Eucalyptus***
*Selenophoma eucalypti* and *Stigmina robbenensis* spp. nov. from *Eucalyptus* leaves on Robben Island 648
***Eucalyptus diversicolor***
Effects of the cord-forming saprotrophs *Hypholoma australe* and *Phanerochaete filamentosa* and of ammonium sulphamate on establishment of *Armillaria luteobubalina* on stumps of *Eucalyptus diversicolor* 951
Effects of *Tricholoma* spp. and ammonium sulphamate on establishment of *Armillaria luteobubalina* on stumps of *Eucalyptus diversicolor* 957
***Eucalyptus globulus***
*Cryptosporiopsis eucalypti* sp. nov., causing leaf spots of eucalypts in Australia, India and U.S.A. 827

***Eugenia jambos***
*Phellinus eugeniae* sp. nov. on *Eugenia jambos* in Taiwan 1527
***Eutypella naqsii***
*Eutypella naqsii* sp. nov. from intertidal *Avicennia* 1462
**Evolution**
Evolution of *Fusarium graminearum* A3/5 grown in a series of glucose-limited chemostat cultures at a high dilution rate 173
***Exidia recisa***
Types of reproductive cell in *Exidia recisa* and *Sirobasidium intermediae* 1187
***Exserohilum antillanum***
A new species of *Exserohilum* from Cuba 825
**Extracellular matrices**
Sensitive staining of fungal extracellular matrices using colloidal gold 567
**Fatty acids**
The use of phospholipid and neutral lipid fatty acids to estimate biomass of arbuscular mycorrhizal fungi in soil 623
Combined fatty acid and sterol profiles of *Heterobasidion annosum* intersterility groups S, P and F 1025
**Fertilizers**
Populations of *Fusarium* spp., in soil growing continuous winter wheat, and effects of long-term application of fertilizers and of straw incorporation 1391
**Fluorescent staining**
Use of a real-time fluorescent probe to study the electrostatic properties of the cell surface of *Candida albicans* 969
**Fossil fungi**
Some fossil fungal form-taxa from the Maastrichtian and Palaeogene ages 513
**Fractal geometry**
Fractal geometry of diffuse mycelia and rhizomorphs of *Armillaria* species 81
**Fruiting induction**
Induction of precocious fruiting by a diffusible factor in the polypore *Phellinus contiguus* 325
***Fumagopsis complexa***
*Fumagopsis complexa* sp. nov., a species with complicated conidial morphology 1450
**Fungal biomass**
A critical assessment of the validity of ergosterol as an indicator of fungal biomass 479
**Fungicide resistance**
The segregation of resistance to carbendazim in sexual progeny of *Monilinia fructicola* 677
Seasonal changes of sensitivities to sterol demethylation inhibitors in *Venturia inaequalis* populations 689
*In vitro* formation and survival of appressoria of a mycoherbicide agent, *Colletotrichum gloeosporioides* f. sp. *malvae* 1103
Factors affecting pathogenicity of a benomyl-resistant strain of *Colletotrichum gloeosporioides* f. sp. *malvae* 1108
Rapid identification of benomyl resistant strains of *Botrytis cinerea* using the polymerase chain reaction 1483
**Fungicides**
The effects of the fungicide Bayfidan on infection structure formation by *Hemileia vastatrix* in *Coffea arabica* cv. Caturra 793
Ultrastructural studies of the effects of tetraconizole on the barley-powdery mildew host pathogen complex 799
***Fusarium***
Mycogeography of *Fusarium* species in soils from tropical, arid and mediterranean regions of Australia 523
Fungal assemblages in stem and twig lesions of *Quercus robur* in Switzerland 534
***Fusarium acuminatum***
Survival and growth in culture of four *Fusarium* species in relation to occurrence in soils from hot climatic regions 529
Cultural degeneration in two *Fusarium* species and its effects on toxigenicity and cultural morphology 615
Mycogeography of *Fusarium*: climatic analysis of the distribution within Australia of *Fusarium* species in section *Gibbosum* 1218
***Fusarium avenaceum***
Taxonomy of *Fusarium*: characterization of *Fusarium avenaceum* subsp. *aywerte* and *Fusarium avenaceum* subsp. *nurragi* 287
***Fusarium babinda***
Characterization of *Fusarium babinda* sp. nov. 1345
***Fusarium compactum***
Survival and growth in culture of four *Fusarium* species in relation to occurrence in soils from hot climatic regions 529
Cultural degeneration in two *Fusarium* species and its effects on toxigenicity and cultural morphology 615
Mycogeography of *Fusarium*: climatic analysis of the distribution within Australia of *Fusarium* species in section *Gibbosum* 1218
***Fusarium culmorum***
Comparison of xylanase production by fungal pathogens of barley with special reference to *Bipolaris sorokiniana* 717
Populations of *Fusarium* spp., in soil growing continuous winter wheat, and effects of long-term application of fertilizers and of straw incorporation 1391
Behaviour of zoospore cysts of the mycoparasite *Pythium oligandrum* in relation to their potential for biocontrol of plant pathogens 1417
***Fusarium detonianum***
Taxonomy of *Fusarium*: characterization of *Fusarium avenaceum* subsp. *aywerte* and *Fusarium avenaceum* subsp. *nurragi* 287
***Fusarium equiseti***
Survival and growth in culture of four *Fusarium* species in relation to occurrence in soils from hot climatic regions 529
Mycogeography of *Fusarium*: climatic analysis of the distribution within Australia of *Fusarium* species in section *Gibbosum* 1218
***Fusarium graminearum***
Evolution of *Fusarium graminearum* A3/5 grown in a series of glucose-limited chemostat cultures at a high dilution rate 173
***Fusarium longipes***
Mycogeography of *Fusarium*: climatic analysis of the distribution within Australia of *Fusarium* species in section *Gibbosum* 1218
***Fusarium merismoides***
Populations of *Fusarium* spp., in soil growing continuous winter wheat, and effects of long-term application of fertilizers and of straw incorporation 1391
***Fusarium oxysporum***
RAPD characterization of *Fusarium oxysporum* associated with wilt of angsana (*Pterocarpus indicus*) in Singapore 14
The antifungal properties of *Minimedusa polyspora* 337
Mycobiota and mycotoxins in herbal drugs of Indian pharmaceutical industries 697
Genetic variation among a world-wide collection of isolates of *Fusarium oxysporum* f. sp. *cubense* analysed by RAPD-PCR fingerprinting 1378
Populations of *Fusarium* spp., in soil growing continuous winter wheat, and effects of long-term application of fertilizers and of straw incorporation 1391
Behaviour of zoospore cysts of the mycoparasite *Pythium oligandrum* in relation to their potential for biocontrol of plant pathogens 1417
***Fusarium sambucinum***
Survival and growth in culture of four *Fusarium* species in relation to occurrence in soils from hot climatic regions 529
***Fusarium scirpi***
Mycogeography of *Fusarium*: climatic analysis of the distribution within Australia of *Fusarium* species in section *Gibbosum* 1218
***Fusarium solani***
Populations of *Fusarium* spp., in soil growing continuous winter wheat, and effects of long-term application of fertilizers and of straw incorporation 1391
***Fusarium subglutinans***
Beauvericin production by *Fusarium subglutinans* from different geographical areas 282
***Gaeumannomyces graminis***
Comparison of xylanase production by fungal pathogens of barley with special reference to *Bipolaris sorokiniana* 717
Specific detection of *Gaeumannomyces graminis* in soil using polymerase chain reaction 1385
***Ganoderma boninense***
Gene phylogeny of the *Ganoderma lucidum* complex based on ribosomal DNA sequences. Comparison with traditional taxonomic characters 1489
***Ganoderma lucidum***
Gene phylogeny of the *Ganoderma lucidum* complex based on ribosomal DNA sequences. Comparison with traditional taxonomic characters 1489
***Ganoderma oerstedii***
Gene phylogeny of the *Ganoderma lucidum* complex based on ribosomal DNA sequences. Comparison with traditional taxonomic characters 1489
***Ganoderma tsugae***
Gene phylogeny of the *Ganoderma lucidum* complex based on ribosomal DNA sequences. Comparison with traditional taxonomic characters 1489

**Genetics**
Sub-repeat sequences in the ribosomal RNA intergenic regions of *Verticillium alboatrum* and *V. dahliae* 257
Genetic analysis of *Cochliobolus heterostrophus* beige mutant 621
Genetic exchange between diploid and haploid mycelia of *Armillaria gallica* 641
The segregation of resistance to carbendazim in sexual progeny of *Monilinia fructicola* 677
Genetic analysis of homokaryons from a basidiome of *Laccaria bicolor* using random amplified polymorphic DNA (RAPD) markers 1361
Genetic variation among a world-wide collection of isolates of *Fusarium oxysporum* f. sp. *cubense* analysed by RAPD-PCR fingerprinting 1378
**Genotypic variation**
RAPD characterization of *Fusarium oxysporum* associated with wilt of angsana (*Pterocarpus indicus*) in Singapore 14
Analysis of variation within *Microdochium nivale* from wheat: evidence for a distinct sub-group 103
**Germination**
A rind-associated factor from sclerotia of *Sclerotinia minor* stimulates germination of a mycoparasite 1063
***Gibberella subglutinans***
Beauvericin production by *Fusarium subglutinans* from different geographical areas 282
**Glomales**
*Acaulospora koskei*, a new species of Glomales from Poland 237
***Glomus***
The use of phospholipid and neutral lipid fatty acids to estimate biomass of arbuscular mycorrhizal fungi in soil 623
The occurrence of calcofluor and lectin-binding polysaccharides in the outer wall of arbuscular mycorrhizal fungal spores 1249
***Glomus viscosum***
A new fungal species forming arbuscular mycorrhizas: *Glomus viscosum* 1500
**Glucose**
Glucose catabolism pathways in *Lentinula edodes* determined with radiorespirometry and enzymic analysis 859
***Gnomonia lithocarpicola***
Taiwan fungi: new species and new records of ascomycetes 917
***Gnomoniella lithocarpicola***
Taiwan fungi: new species and new records of ascomycetes 917
**Growth**
Mathematical methods to compare growth curves of *Pythium arrhenomanes* and eleven other *Pythium* species as an aid to their identification 19
***Guignardia candeloflamma***
*Guignardia candeloflamma* sp. nov. causing leaf spots of *Pinanga* spp. 110
***Hakea***
*Phyllachora* from Australia. Observations on *P. grevilleae* and two new species: *P. victoriensis* and *P. hakeicola* from *Hakea* 1261
***Halosarpheia aquadulcis***
*Halosarpheia aquadulcis* sp. nov., a new lignicolous, freshwater ascomycete from Taiwan 49
**Haustoria**
The effects of the fungicide Bayfidan on infection structure formation by *Hemileia vastatrix* in *Coffea arabica* cv. Caturra 793
***Helicoonites goosii***
Some fossil fungal form-taxa from the Maastrichtian and Palaeogene ages 513
***Helicosporiates pirozynskii***
Some fossil fungal form-taxa from the Maastrichtian and Palaeogene ages 513
***Hemileia vastatrix***
The effects of the fungicide Bayfidan on infection structure formation by *Hemileia vastatrix* in *Coffea arabica* cv. Caturra 793
Teliospores of *Hemileia vastatrix* 932
**Herpotrichiellaceae**
A molecular-morphotaxonomic approach to the systematics of the Herpotrichiellaceae and allied black yeasts 897
***Heterobasidion annosum***
Chitinolytic enzymes of pathogenic and ectomycorrhizal fungi 935
Combined fatty acid and sterol profiles of *Heterobasidion annosum* intersterility groups S, P and F 1025
**Heterokaryosis**
Heterokaryon formation and vegetative compatibility in *Sclerotinia sclerotiorum* 241
**Heterothallism**
Bipolar heterothallism in *Tapesia yallundae* for the two varieties of the anamorph *Pseudocercosporella herpotrichoides* 76
**Hexoses**
Mannitol and hexoses are components of Buller's drop 833
***Hirsutella***
*Torrubiella iriomoteana* from scale insects in Thailand and a new related species *Torrubiella siamensis* with notes on their respective anamorphs 330
**Histology**
Infection processes of *Sclerospora graminicola* on *Pennisetum glaucum* lines resistant and susceptible to downy mildew 317
A histological study of downy mildew (*Peronospora rubi*) infection of leaves, flowers and developing fruits of Tummelberry and other *Rubus* spp. 1311
***Hydnangium***
Reliability of RAPD fingerprinting of three basidiomycete fungi, *Laccaria*, *Hydnangium* and *Rhizoctonia* 179
**Hydrophobin**
The rodlet layer from aerial and submerged conidia of the entomogenous fungus *Beauveria bassiana* contains hydrophobin 403
**Hygromycin**
Genetic transformation of the ectomycorrhizal fungus *Paxillus involutus* by particle bombardment 557
***Hymenoscyphus ericae***
Utilization of sucrose by *Hymenoscyphus ericae* (an ericoid endomycorrhizal fungus) and ectomycorrhizal fungi 1233
***Hymenostilbe***
*Cordyceps sphecocephala* and a *Hymenostilbe* sp. infecting wasps and bees in Thailand 154
***Hymenostilbe nutans***
Notes on *Cordyceps nutans* and its anamorph, a pathogen of hemipteran bugs in Thailand 724
***Hymenostilbe ventricosa***
*Hymenostilbe ventricosa* sp. nov. a pathogen of cockroaches in Thailand 1201
**Hyphal branching**
The dynamics of hyphal growth 385
**Hyphal differentiation**
The dynamics of hyphal growth 385
***Hypholoma australe***
Effects of the cord-forming saprotrophs *Hypholoma australe* and *Phanerochaete filamentosa* and of ammonium sulphamate on establishment of *Armillaria luteobubalina* on stumps of *Eucalyptus diversicolor* 951
***Hypholoma fasciculare***
Phosphorus translocation by saprotrophic basidiomycete mycelial cord systems on the floor of a mixed deciduous woodland 977
**Hyphomycetes**
Two new hyphomycetes from India 1004
***Ilyomyces dianoi***
Two new species of *Ilyomyces* 789
***Ilyomyces victoriae***
Two new species of *Ilyomyces* 789
**Immunofluorescence**
*In planta* immunolabelling of three types of peripheral vesicles in cells of *Phytophthora cinnamomi* infecting chestnut roots 1281
**Infection**
The effects of the fungicide Bayfidan on infection structure formation by *Hemileia vastatrix* in *Coffea arabica* cv. Caturra 793
Effect of humidity on infection of rose petals by dry-inoculated conidia of *Botrytis cinerea* 1303
A histological study of downy mildew (*Peronospora rubi*) infection of leaves, flowers and developing fruits of Tummelberry and other *Rubus* spp. 1311
***Inonotus hispidus***
Soft rot and multiple T-branching by the basidiomycete *Inonotus hispidus* in ash and London plane 813
**Insect association**
*Thrips obscuratus* as a potential vector of *Botrytis cinerea* in kiwifruit 267
The performance of the autumnal moth is lower on trees infected by birch rust 994
**Interaction**
Interactions between ectomycorrhizal and saprotrophic fungi on agar and in association with seedlings of lodgepole pine (*Pinus contorta*) 159
**Intersterility groups**
Combined fatty acid and sterol profiles of *Heterobasidion annosum* intersterility groups S, P and F 1025
**Invertase**
Invertase activity in *Epichloë/Acremonium* fungal endophytes and its possible role in choke disease 867
**Isoenzyme analysis**
Evidence for the existence of two subpopulations in *Phytophthora capsici* and a redescription of the species 89

Polymorphism of Tox$^{O}$ *Leptosphaeria maculans* isolates as revealed by soluble protein and isozyme electrophoresis 221
**Isolation**
The influence of isolation procedure on recovery of *Verticillium* species and *Colletotrichum coccodes* from colonised potato stems 942
***Itersonilia perplexans***
Mannitol and hexoses are components of Buller's drop 833
**Keys**
Studies on biotrophic fungi from Argentina: *Microcyclus porlieriae*, with a key to South American species of *Microcyclus* 353
Two new species of *Monascus* from Iraq, with a key to known species of the genus 659
Three *Uncinula* species from the Brazilian cerrado and a key to South American *Uncinula* species 821
Laboulbeniales parasitic on British Diptera 841
Taiwan fungi: new species and new records of ascomycetes 917
Further observations on *Pollacia mandshurica*, a pathogen of *Populus* spp. in China 983
The genus *Entoloma* in Kerala State, India 1083
*Phyllachora* from Australia. Observations on *P. grevilleae* and two new species: *P. victoriensis* and *P. hakeicola* from *Hakea* 1261
**Laboulbeniales**
Laboulbeniales parasitic on British Diptera 841
*Parvomyces* a new genus of Laboulbeniales from Spain 1071
***Laccaria bicolor***
Genetic analysis of homokaryons from a basidiome of *Laccaria bicolor* using random amplified polymorphic DNA (RAPD) markers 1361
***Laccaria laccata***
Reliability of RAPD fingerprinting of three basidiomycete fungi, *Laccaria*, *Hydnangium* and *Rhizoctonia* 179
**Laccase**
Screening of 68 species of basidiomycete for enzymes involved in lignin degradation 37
***Lactarius indigo***
Observations on the phenology of ten fungal species in the subtropical forests at Xalapa, Mexico 54
***Lamprospora amethystina***
Notes on British species of *Lamprospora* and *Ramsbottomia* 1521
***Lamprospora astroidea***
Notes on British species of *Lamprospora* and *Ramsbottomia* 1521
***Lamprospora campylopodis***
Notes on British species of *Lamprospora* and *Ramsbottomia* 1521
***Lamprospora crouanii***
Notes on British species of *Lamprospora* and *Ramsbottomia* 1521
***Lamprospora dicranellae***
Notes on British species of *Lamprospora* and *Ramsbottomia* 1521
***Lamprospora faroensis***
Notes on British species of *Lamprospora* and *Ramsbottomia* 1521
***Lamprospora miniata***
Notes on British species of *Lamprospora* and *Ramsbottomia* 1521
***Lamprospora modesta***
Notes on British species of *Lamprospora* and *Ramsbottomia* 1521
***Lamprospora polytrichi***
Notes on British species of *Lamprospora* and *Ramsbottomia* 1521
***Lantana camara***
The mycobiota of the weed *Lantana camara* in Brazil, with particular reference to biological control 769
***Larix laricina***
A new species of *Ophiostoma* with a *Leptographium* anamorph from larch in Japan 1334
**Leaf fungi**
Leaf blotch of lime associated with *Asteromella tiliae* comb. nov. and the latter's connection to *Didymosphaeria petrakiana* 1191
**Leaf spot disease**
*Guignardia candeloflamma* sp. nov. causing leaf spots of *Pinanga* spp. 110
*Astrosphaeriella fronsicola* sp. nov. associated with leaf spots of *Oraniopsis* and other palms 453
*Mycosphaerella palmicola* associated with leaf spots of *Cocos nucifera* in Australia, Irian Jaya and Papua New Guinea 704
**Lectins**
The occurrence of calcofluor and lectin-binding polysaccharides in the outer wall of arbuscular mycorrhizal fungal spores 1249
***Lentinula edodes***
Glucose catabolism pathways in *Lentinula edodes* determined with radiorespirometry and enzymic analysis 859
***Lentinus caespiticola***
A new variety of *Lentinus caespiticola* from Southern India 451
***Lepista***
Enhancement of nitrification rates *in vitro* by interacting species of saprotrophic fungi 1128
***Leptographium laricis***
A new species of *Ophiostoma* with a *Leptographium* anamorph from larch in Japan 1334
***Leptosphaeria bicolor***
Phylogenetic relationship among several *Leptosphaeria* species based on their ribosomal DNA sequences 593
***Leptosphaeria doliolum***
Phylogenetic relationship among several *Leptosphaeria* species based on their ribosomal DNA sequences 593
***Leptosphaeria maculans***
Polymorphism of Tox$^{O}$ *Leptosphaeria maculans* isolates as revealed by soluble protein and isozyme electrophoresis 221
Phylogenetic relationship among several *Leptosphaeria* species based on their ribosomal DNA sequences 593
***Leptosphaeria microscopica***
Phylogenetic relationship among several *Leptosphaeria* species based on their ribosomal DNA sequences 593
***Leptosphaeria nodorum***
Phylogenetic relationship among several *Leptosphaeria* species based on their ribosomal DNA sequences 593
***Leptospora implexa***
Taiwan fungi: new species and new records of ascomycetes 917
***Leucoscypha erminea***
Notes on British *Leucoscypha* species with a new combination in *Melastiza* 1513
***Leucoscypha ricciae***
Notes on British *Leucoscypha* species with a new combination in *Melastiza* 1513
***Leucoscypha rozei***
Notes on British *Leucoscypha* species with a new combination in *Melastiza* 1513
**Lichenicolous fungi**
*Epaphroconidia hawksworthii* gen. et sp. nov., a new lichenicolous conidial fungus on *Pertusaria pertusa* in Spain 850
**Lichens**
DNA isolation from lichen ascomata 1321
**Lignicolous fungi**
*Halosarpheia aquadulcis* sp. nov., a new lignicolous, freshwater ascomycete from Taiwan 49
**Lignin degradation**
Screening of 68 species of basidiomycete for enzymes involved in lignin degradation 37
**Literature review**
One stop mycology, 118, 248, 379, 505, 630, 759, 887, 1016, 1139, 1268, 1399, 1529
***Maculatipalma fronsicola***
*Maculatipalma fronsicola* gen. et sp. nov. causing leaf spots on palm species in north Queensland with descriptions of related genera: *Apiosplagiostoma* and *Plagiostoma* 727
***Magnaporthe grisea***
Sensitive staining of fungal extracellular matrices using colloidal gold 567
***Magnolia soulangeana***
A new fungal species forming arbuscular mycorrhizas: *Glomus viscosum* 1500
**Mangrove fungi**
Ultrastructure of asci and ascospores of two mangrove fungi: *Swampomyces armeniacus* and *Marinosphaera mangrovei* 1465
**Mannitol**
Mannitol and hexoses are components of Buller's drop 833
**Marine fungi**
*Eutypella naqsii* sp. nov. from intertidal *Avicennia* 1462
***Marinosphaera mangrovei***
Ultrastructure of asci and ascospores of two mangrove fungi: *Swampomyces armeniacus* and *Marinosphaera mangrovei* 1465
***Massarina***
The genus *Massarina*, with a description of *M. ebernea* and an annotated list of *Massarina* names 291
***Massarina eburnea***
The genus *Massarina*, with a description of *M. ebernea* and an annotated list of *Massarina* names 291
**Mathematical modelling**
Dominance and diversity of the fungal communities on fir needles 1439

**Mating reactions**
Mating relationships between different pathotypes of *Tapesia yallundae*, the teleomorph of the eyespot pathogen *Pseudocercosporella herpotrichoides* 457
Taxonomy, sexuality and mating types of *Diaporthe adunca* 1409
***Melaleuca***
*Phyllachora* from Australia. Observations on *P. pseudostromatica*, *P. melaleuca* and a new species, *P. shivasii* from the host *Melaleuca* 1253
***Melampsora epitea***
A comparative study of stem- and leaf-infecting forms of *Melampsora* rust on *Salix viminalis* 357
***Melampsora larici-epitea***
A comparative study of stem- and leaf-infecting forms of *Melampsora* rust on *Salix viminalis* 357
***Melampsora ribesii-viminalis***
A comparative study of stem- and leaf-infecting forms of *Melampsora* rust on *Salix viminalis* 357
***Melampsoridium betulinum***
The performance of the autumnal moth is lower on trees infected by birch rust 994
***Melanconium juglandinum***
Conidiogenesis and morphology of *Melanconium juglandinum* 1059
***Melastiza rozei***
Notes on British *Leucoscypha* species with a new combination in *Melastiza* 1513
**Mellein**
Biologically active secondary metabolites of endophytic *Pezicula* species 1007
***Menispora gamundiae***
*Menispora gamundiae* sp. nov., a new Hyphomycete from Argentina (Buenos Aires province) 377
***Menispora glauca***
Teleomorph-anamorph connections in Ascomycetes: the anamorphs of three species of *Chaetosphaeria* 585
**Metabolites**
Metabolite profiles of common *Stemphylium* species 672
**Metal toxicity**
Sorption of toxic metals by fungi and clay minerals 1429
***Metarhizium album***
Restriction fragment length polymorphism in the ribosomal RNA gene complex of isolates of the entomopathogenic fungus *Metarhizium anisopliae* 485
***Metarhizium anisopliae***
Restriction fragment length polymorphism in the ribosomal RNA gene complex of isolates of the entomopathogenic fungus *Metarhizium anisopliae* 485
The germination behaviour of *Metarhizium anisopliae* on the surface of aphid and flea beetle cuticles 945
Protein synthesis in *Metarhizium anisopliae* growing on host cuticle 1034
Swainsonine production by *Metarhizium anisopliae* determined by means of an enzymatic assay 1078
***Metarhizium flavoviride***
Restriction fragment length polymorphism in the ribosomal RNA gene complex of isolates of the entomopathogenic fungus *Metarhizium anisopliae* 485
**Methyl benzimidazole-2-yl carbamate**
Effect of the microtubule inhibitor methyl benzimidazole-2-yl carbamate (MBC) on protein secretion and microtubule distribution in *Cladosporium cucumerinum* 43
***Microcyclus porlieriae***
Studies on biotrophic fungi from Argentina: *Microcyclus porlieriae*, with a key to South American species of *Microcyclus* 353
***Microdochium nivale***
Analysis of variation within *Microdochium nivale* from wheat: evidence for a distinct sub-group 103
***Micropeltis symploci***
Taiwan fungi: new species and new records of ascomycetes 917
***Micropustulomyces mucilaginosus***
The mycobiota of the weed *Lantana camara* in Brazil, with particular reference to biological control 769
***Microsphaera flacourtiae***
New powdery mildews from India 374
***Microsphaera vanbruntiana* var. *sambuci-racemosae***
A *Microsphaera* on red elder (*Sambucus racemosa*) in Western Europe 323
***Microstroma ruizii-belinii***
Mycobiota of the giant sensitive plant, *Mimosa pigra sensu lato* in the Neotropics 420
**Microtubules**
Effect of the microtubule inhibitor methyl benzimidazole-2-yl carbamate (MBC) on protein secretion and microtubule distribution in *Cladosporium cucumerinum* 43
***Mikania micrantha***
The mycobiota of the weed *Mikania micrantha* in southern Brazil with particular reference to fungal pathogens for biological control 343
***Miladina lechithina***
Notes on *Miladina* 1525
***Mimosa pigra***
Mycobiota of the giant sensitive plant, *Mimosa pigra sensu lato* in the Neotropics 420
***Mimosa schomburgkii***
A new species of *Diorchidiella* with a spermogonial state 885
***Minimedusa polyspora***
The antifungal properties of *Minimedusa polyspora* 337
**Mitochondrial DNA**
Mitochondrial DNA restriction fragment length polymorphisms and phenetic relationships in natural populations of the oyster mushroom, *Pleurotus ostreatus* 562
***Mitteriella nana***
New hyphopodiate hyphomycetes from North-Eastern Uttar Pradesh, India 395
***Monacrosporium***
Trap formation by conidia of nematode-trapping *Monacrosporium* spp. 839
***Monascus pallens***
Two new species of *Monascus* from Iraq, with a key to known species of the genus 659
***Monascus sanguineus***
Two new species of *Monascus* from Iraq, with a key to known species of the genus 659
***Monilinia fructicola***
The segregation of resistance to carbendazim in sexual progeny of *Monilinia fructicola* 677
**Monoclonal antibodies**
*In planta* immunolabelling of three types of peripheral vesicles in cells of *Phytophthora cinnamomi* infecting chestnut roots 1281
***Monographella nivalis***
Analysis of variation within *Microdochium nivale* from wheat: evidence for a distinct sub-group 103
**Morphology**
Variation in morphology, growth and fructification of isolates of the *Agaricus subfloccosus* complex 1453
**Mutants**
A conidial trap-forming mutant of *Arthrobotrys oligospora* 1395
**Mycelial cords**
Phosphorus translocation by saprotrophic basidiomycete mycelial cord systems on the floor of a mixed deciduous woodland 977
**Mycelium development**
Fractal geometry of diffuse mycelia and rhizomorphs of *Armillaria* species 81
Mycelial density profiles of fungi on heterogenous media and their interpretation in terms of nutrient reallocation patterns 143
**Mycogeography**
Mycogeography of *Fusarium* species in soils from tropical, arid and mediterranean regions of Australia 523
Mycogeography of *Fusarium*: climatic analysis of the distribution within Australia of *Fusarium* species in section *Gibbosum* 1218
**Mycoparasites**
New components of the chitinolytic system of *Trichoderma harzianum* 441
Comparison of the mycoparasites *Pythium periplocum*, *P. acanthicum* and *P. oligandrum* 963
The ability of the mycoparasite *Verticillium biguttatum* to infect *Rhizoctonia solani* and other plant parasites 997
A rind-associated factor from sclerotia of *Sclerotinia minor* stimulates germination of a mycoparasite 1063
Behaviour of zoospore cysts of the mycoparasite *Pythium oligandrum* in relation to their potential for biocontrol of plant pathogens 1417
**Mycorrhizal fungi**
Estimation of vacuolar pH in actively growing hyphae of the fungus *Pisolithus tinctorius* 549
The use of phospholipid and neutral lipid fatty acids to estimate biomass of arbuscular mycorrhizal fungi in soil 623
Detection of the arbuscular mycorrhizal fungus *Scutellospora heterogama* within roots using polyclonal antisera 1225
Utilization of sucrose by *Hymenoscyphus ericae* (an ericoid endomycorrhizal fungus) and ectomycorrhizal fungi 1233
The occurrence of calcofluor and lectin-binding polysaccharides in the outer wall of arbuscular mycorrhizal fungal spores 1249

Properties of nitrate reductase from the mycorrhizal ascomycete *Wilcoxina mikolae* var. *mikolae* 1356
Parasitism of non-host plants by the mycorrhizal fungus *Tuber melanosporum* 1367
A new fungal species forming arbuscular mycorrhizas: *Glomus viscosum* 1500

**Mycorrhizin A**
Biologically active secondary metabolites of endophytic *Pezicula* species 1007

***Mycosphaerella mandshurica***
Further observations on *Pollacia mandshurica*, a pathogen of *Populus* spp. in China 983

***Mycosphaerella mikania-micranthae***
The mycobiota of the weed *Mikania micrantha* in southern Brazil with particular reference to fungal pathogens for biological control 343

***Mycosphaerella mimosicola***
Mycobiota of the giant sensitive plant, *Mimosa pigra sensu lato* in the Neotropics 420

***Mycosphaerella palmicola***
*Mycosphaerella palmicola* associated with leaf spots of *Cocos nucifera* in Australia, Irian Jaya and Papua New Guinea 704

***Mycosyrinx cissi***
Noteworthy germinations of some Costa Rican Ustilaginales 853

**Mycotoxins**
Beauvericin production by *Fusarium subglutinans* from different geographical areas 282
Mycobiota and mycotoxins in herbal drugs of Indian pharmaceutical industries 697

***Mycotypha africana***
Low temperature scanning electron microscopy of the ultrastructural development of zygospores and sporangiospores in *Mycotypha africana*, and the effects of cultural conditions on sexual versus asexual reproduction 539

***Mycovellosiella berkheyae***
*Cercospora* species and similar fungi of South Africa 31

***Mycovellosiella berkheyae-maritimae***
*Cercospora* species and similar fungi of South Africa 31

***Mycovellosiella dichondrae***
*Cercospora* species and similar fungi of South Africa 31

***Mycovellosiella lantanae***
The mycobiota of the weed *Lantana camara* in Brazil, with particular reference to biological control 769

**Myxomycetes**
Taxonomic evaluation of the myxomycete *Calonema luteolum* 311

***Naranus cryptomeriae***
*Naranus cryptomeriae* gen. et sp. nov. from Japanese cedar seed 806

**Nematode fungi**
*Dactylella formosana*, a new nematode-trapping fungus from Taiwan 751
Trap formation by conidia of nematode-trapping *Monacrosporium* spp. 839
Unusual germination of spores of *Arthrobotrys conoides* and *A. cladodes* 981
A conidial trap-forming mutant of *Arthrobotrys oligospora* 1395

***Neobulgaria undata***
Notes on British taxa referred to *Aleuria* 1515

***Neocallimastix***
Demonstration of zoosporangia of anaerobic fungi on plant residues recovered from faeces of cattle 471

***Neottiosporina sorghicola***
*Neottiosporina sorghicola* sp. nov., associated with leaf lesions on *Sorghum vulgare* from China 831

**New combinations**
*Cercospora* species and similar fungi of South Africa 31
Taxonomic evaluation of the myxomycete *Calonema luteolum* 311
The mycobiota of the weed *Mikania micrantha* in southern Brazil with particular reference to fungal pathogens for biological control 343
Studies on biotrophic fungi from Argentina: *Microcyclus porlieriae*, with a key to South American species of *Microcyclus* 353
Teleomorph-anamorph connections in Ascomycetes: the anamorphs of three species of *Chaetosphaeria* 585
*Phellinus igniarius* and its closest relatives in Europe 735
Taxonomic studies on Ustilaginales from Costa Rica 783
Laboulbeniales parasitic on British Diptera 841
A molecular-morphotaxonomic approach to the systematics of the Herpotrichiellaceae and allied black yeasts 897
The genus *Entoloma* in Kerala State, India 1083
Leaf blotch of lime associated with *Asteromella tiliae* comb. nov. and the latter's connection to *Didymosphaeria petrakiana* 1191
Notes on British *Leucoscypha* species with a new combination in *Melastiza* 1513
Notes on British taxa referred to *Aleuria* 1515
Notes on British species of *Lamprospora* and *Ramsbottomia* 1521

**New family**
Studies on fungi with isthmoid ascospores: the genus *Vialaea*, with the description of the new family Vialaeaceae 367

**New genera**
New hyphopodiate hyphomycetes from North-Eastern Uttar Pradesh, India 395
Some fossil fungal form-taxa from the Maastrichtian and Palaeogene ages 513
*Pseudofuscophialis lignicola* gen. et sp. nov. and *Chaetosphaeria capitata* sp. nov. from wood in Taiwan 711
*Maculatipalma fronsicola* gen. et sp. nov. causing leaf spots on palm species in north Queensland with descriptions of related genera: *Apioplagiostoma* and *Plagiostoma* 727
The mycobiota of the weed *Lantana camara* in Brazil, with particular reference to biological control 769
*Naranus cryptomeriae* gen. et sp. nov. from Japanese cedar seed 806
*Epaphroconidia hawksworthii* gen. et sp. nov., a new lichenicolous conidial fungus on *Pertusaria pertusa* in Spain 850
A molecular-morphotaxonomic approach to the systematics of the Herpotrichiellaceae and allied black yeasts 897
*Parvomyces* a new genus of Laboulbeniales from Spain 1071
A new pleomorphic ascomycete, *Calyptrozyma arxii* gen. et sp. nov., isolated from the human lower oesophagus 1239

**New species**
*Cercospora* species and similar fungi of South Africa 31
*Halosarpheia aquadulcis* sp. nov., a new lignicolous, freshwater ascomycete from Taiwan 49
A papillate *Phytophthora* species with specificity to *Rubus* 57
*Guignardia candeloflamma* sp. nov. causing leaf spots of *Pinanga* spp. 110
*Sclerotinia glacialis* sp. nov., from the alpine zone of Switzerland 113
A new species of *Septocyta* from India 166
*Ophiostoma himal-ulmi* sp. nov., a new species of Dutch elm disease fungus endemic to the Himalayas 205
Three new species of *Pseudocercospora* from the Nepal Himalaya 230
Additions to *Stenella* from India 233
*Acaulospora koskei*, a new species of Glomales from Poland 237
*Pyrenochaeta ligni-putridi* sp. nov., a new coelomycete associated with butt rot of *Picea abies* in Switzerland 274
*Torrubiella iriomoteana* from scale insects in Thailand and a new related species *Torrubiella siamensis* with notes on their respective anamorphs 330
The mycobiota of the weed *Mikania micrantha* in southern Brazil with particular reference to fungal pathogens for biological control 343
A new species of *Ardhachandra* from Taiwan 364
New powdery mildews from India 374
*Menispora gamundiae* sp. nov., a new Hyphomycete from Argentina (Buenos Aires province) 377
New hyphopodiate hyphomycetes from North-Eastern Uttar Pradesh, India 395
Mycobiota of the giant sensitive plant, *Mimosa pigra sensu lato* in the Neotropics 420
*Astrosphaeriella fronsicola* sp. nov. associated with leaf spots of *Oraniopsis* and other palms 453
Some fossil fungal form-taxa from the Maastrichtian and Palaeogene ages 513
*Phyllachora* from Australia. *Phyllachora sageretiae* sp. nov. from *Sageretia hamosa* 554
*Selenophoma eucalypti* and *Stigmina robbenensis* spp. nov. from *Eucalyptus* leaves on Robben Island 648
Two new species of *Monascus* from Iraq, with a key to known species of the genus 659
*Cryptosporiopsis radicicola* sp. nov. from roots of *Quercus robur* 663
Additions to *Pseudocercospora* from India 707
*Pseudofuscophialis lignicola* gen. et sp. nov. and *Chaetosphaeria capitata* sp. nov. from wood in Taiwan 711
*Maculatipalma fronsicola* gen. et sp. nov. causing leaf spots on palm species in north Queensland with descriptions of related genera: *Apioplagiostoma* and *Plagiostoma* 727
*Dactylella formosana*, a new nematode-trapping fungus from Taiwan 751
*Antrodia cinnamomea* sp. nov. on *Cinnamomum kanehirai* in Taiwan 756

The mycobiota of the weed *Lantana camara* in Brazil, with particular reference to biological control 769
Taxonomic studies on Ustilaginales from Costa Rica 783
Two new species of *Ilyomyces* 789
*Naranus cryptomeriae* gen. et sp. nov. from Japanese cedar seed 806
Three *Uncinula* species from the Brazilian cerrado and a key to South American *Uncinula* species 821
A new species of *Exserohilum* from Cuba 825
*Cryptosporiopsis eucalypti* sp. nov., causing leaf spots of eucalypts in Australia, India and U.S.A. 827
*Neottiosporina sorghicola* sp. nov., associated with leaf lesions on *Sorghum vulgare* from China 831
*Epaphroconidia hawksworthii* gen. et sp. nov., a new lichenicolous conidial fungus on *Pertusaria pertusa* in Spain 850
A new species of *Diorchidiella* with a spermogonial state 885
*Aplopsora hennenii* sp. nov., the first rust fungus recorded from Vochysiaceae 914
Taiwan fungi: new species and new records of ascomycetes 917
Two new hyphomycetes from India 1004
*Parvomyces* a new genus of Laboulbeniales from Spain 1071
The genus *Entoloma* in Kerala State, India 1083
*Cordyceps brunneapunctata* sp. nov. infecting beetle larvae in Tailand 1195
A new species of *Selenophoma* on *Elaeocarpus* from India 1199
*Hymenostilbe ventricosa* sp. nov. a pathogen of cockroaches in Thailand 1201
A new pleomorphic ascomycete, *Calyptrozyma arxii* gen. et sp. nov., isolated from the human lower oesophagus 1239
*Phyllachora* from Australia. Observations on *P. pseudostromatica*, *P. melaleuca* and a new species, *P. shivasii* from the host *Melaleuca* 1253
*Phyllachora* from Australia. Observations on *P. grevilleae* and two new species: *P. victoriensis* and *P. hakeicola* from *Hakea* 1261
A new species of *Ophiostoma* with a *Leptographium* anamorph from larch in Japan 1334
Characterization of *Fusarium babinda* sp. nov. 1345
*Fumagopsis complexa* sp. nov., a species with complicated conidial morphology 1450
*Eutypella naqsii* sp. nov. from intertidal *Avicennia* 1462
A new fungal species forming arbuscular mycorrhizas: *Glomus viscosum* 1500
*Phellinus eugeniae* sp. nov. on *Eugenia jambos* in Taiwan 1527

**New subspecies**
Taxonomy of *Fusarium*: characterization of *Fusarium avenaceum* subsp. *aywerte* and *Fusarium avenaceum* subsp. *nurragi* 287

**New varieties**
A new variety of *Lentinus caespiticola* from Southern India 451
*Pleurotus cystidiosus* var. *formosensis* var. nov.: an unusual *Pleurotus* collection of subgenus *Coremiopleurotus* from Taiwan 1479

**Nitrate assimilation**
Properties of nitrate reductase from the mycorrhizal ascomycete *Wilcoxina mikolae* var. *mikolae* 1356

**Nitrification**
Nitrification, S-oxidation and P-solubilization by the soil yeast *Williopsis californica* and by *Saccharomyces cerevisiae* 200
Enhancement of nitrification rates *in vitro* by interacting species of saprotrophic fungi 1128

***Nomuraea atypicola***
*Cordyceps cylindrica* and its association with *Nomuraea atypicola* in Tailand 809

**Numerical analysis**
Variation in *Pisolithus* based on basidiome and basidiospore morphology, culture characteristics and analysis of polypeptides using 1D SDS–PAGE 1

**Nutrient movement**
Mycelial density profiles of fungi on heterogenous media and their interpretation in terms of nutrient reallocation patterns 143

***Nymphaea blanda***
Taxonomic studies on Ustilaginales from Costa Rica 783

**Oak decline**
Fungal assemblages in stem and twig lesions of *Quercus robur* in Switzerland 534

**Ochratoxin A**
Mycobiota and mycotoxins in herbal drugs of Indian pharmaceutical industries 697

***Ophioceras leptosporum***
Taiwan fungi: new species and new records of ascomycetes 917

***Ophiostoma himal-ulmi***
*Ophiostoma himal-ulmi* sp. nov., a new species of Dutch elm disease fungus endemic to the Himalayas 205

***Ophiostoma laricis***
A new species of *Ophiostoma* with a *Leptographium* anamorph from larch in Japan 1334

***Ophiostoma novo-ulmi***
*Ophiostoma himal-ulmi* sp. nov., a new species of Dutch elm disease fungus endemic to the Himalayas 205
Naturally occurring non cerato-ulmin producing mutants of *Ophiostoma novo-ulmi* are pathogenic but lack aerial mycelium 436
Molecular relationships between *Ophiostoma ulmi* and the NAN and EAN races of *O. novo-ulmi* determined by RAPD markers 653
Effect of d-factors on *in vitro* cerato-ulmin production by the Dutch elm disease pathogen *Ophiostoma novo-ulmi* 1211

***Ophiostoma piceae***
Genomic fingerprinting supports the separation of *Ophiostoma piceae* into two species 1182

***Ophiostoma quercus***
Genomic fingerprinting supports the separation of *Ophiostoma piceae* into two species 1182

***Ophiostoma ulmi***
*Ophiostoma himal-ulmi* sp. nov., a new species of Dutch elm disease fungus endemic to the Himalayas 205
Molecular relationships between *Ophiostoma ulmi* and the NAN and EAN races of *O. novo-ulmi* determined by RAPD markers 653

***Oraniopsis***
*Astrosphaeriella fronsicola* sp. nov. associated with leaf spots of *Oraniopsis* and other palms 453

***Oudemansiella canarii***
Observations on the phenology of ten fungal species in the subtropical forests at Xalapa, Mexico 54

***Pacifastacus leniusculus***
Physiological adaptation of an *Aphanomyces astaci* strain isolated from the freshwater crayfish *Procambarus clarkii* 574

***Paleoslimacomyces canadensis***
Some fossil fungal form-taxa from the Maastrichtian and Palaeogene ages 513

***Paracercospora scolopiae***
*Cercospora* species and similar fungi of South Africa 31

***Parvomyces merophysiae***
*Parvomyces* a new genus of Laboulbeniales from Spain 1071

**Pathogenicity**
A papillate *Phytophthora* species with specificity to *Rubus* 57
Polymorphism of Tox$^{O}$ *Leptosphaeria maculans* isolates as revealed by soluble protein and isozyme electrophoresis 221
Infection processes of *Sclerospora graminicola* on *Pennisetum glaucum* lines resistant and susceptible to downy mildew 317
A comparative study of stem- and leaf-infecting forms of *Melampsora* rust on *Salix viminalis* 357
*Phloeospora irregularis* associated with lesions on *Rhus pendulina* 397
Analysis of diverse isolates of *Colletotrichum lindemuthianum* infecting common bean using molecular markers 429
Naturally occurring non cerato-ulmin producing mutants of *Ophiostoma novo-ulmi* are pathogenic but lack aerial mycelium 436
Mating relationships between different pathotypes of *Tapesia yallundae*, the teleomorph of the eyespot pathogen *Pseudocercosporella herpotrichoides* 457
Factors affecting pathogenicity of a benomyl-resistant strain of *Colletotrichum gloeosporioides* f. sp. *malvae* 1108
Distribution and relationship of chromosome-specific dispensible DNA sequences in diverse isolates of *Colletotrichum gloeosporioides* 1325
Parasitism of non-host plants by the mycorrhizal fungus *Tuber melanosporum* 1367
Taxonomy, sexuality and mating types of *Diaporthe adunca* 1409
Discrimination between alfalfa and potato isolates of *Verticillium albo-atrum* using RAPD markers 1507

***Paxillus involutus***
Genetic transformation of the ectomycorrhizal fungus *Paxillus involutus* by particle bombardment 557
Chitinolytic enzymes of pathogenic and ectomycorrhizal fungi 935
Factors affecting amino acid uptake by the ectomycorrhizal fungus *Paxillus involutus* 1131

***Penicillium***
Characterization of volatile metabolites from 47 *Penicillium* taxa 1153
Chemosystematics of *Penicillium* based on profiles of volatile metabolites 1167

***Penicillium simplicissimum***
Solubilization of insoluble metal compounds by soil fungi: development of a screening method for solubilizing ability and metal tolerance 987

***Pennisetum glaucum***
Infection processes of *Sclerospora graminicola* on *Pennisetum glaucum* lines resistant and susceptible to downy mildew 317
***Perichaena luteola***
Taxonomic evaluation of the myxomycete *Calonema luteolum* 311
***Perisporiopsis lantanae***
The mycobiota of the weed *Lantana camara* in Brazil, with particular reference to biological control 769
***Peronospora rubi***
A histological study of downy mildew (*Peronospora rubi*) infection of leaves, flowers and developing fruits of Tummelberry and other *Rubus* spp. 1311
**Peroxidase**
Screening of 68 species of basidiomycete for enzymes involved in lignin degradation 37
***Pertusaria pertusa***
*Epaphroconidia hawksworthii* gen. et sp. nov., a new lichenicolous conidial fungus on *Pertusaria pertusa* in Spain 850
***Pezicula***
Biologically active secondary metabolites of endophytic *Pezicula* species 1007
***Pezicula cinnamomea***
Fungal assemblages in stem and twig lesions of *Quercus robur* in Switzerland 534
***Peziza aurata***
Notes on British taxa referred to *Aleuria* 1515
**pH**
Estimation of vacuolar pH in actively growing hyphae of the fungus *Pisolithus tinctorius* 549
***Phalangispora***
*Fumagopsis complexa* sp. nov., a species with complicated conidial morphology 1450
***Phallus impudicus***
Phosphorus translocation by saprotrophic basidiomycete mycelial cord systems on the floor of a mixed deciduous woodland 977
***Phanerochaete filamentosa***
Effects of the cord-forming saprotrophs *Hypholoma australe* and *Phanerochaete filamentosa* and of ammonium sulphamate on establishment of *Armillaria luteobubalina* on stumps of *Eucalyptus diversicolor* 951
***Phanerochaete velutina***
Phosphorus translocation by saprotrophic basidiomycete mycelial cord systems on the floor of a mixed deciduous woodland 977
***Phaseolis vulgaris***
Analysis of diverse isolates of *Colletotrichum lindemuthianum* infecting common bean using molecular markers 429
***Phellinus alni***
*Phellinus igniarius* and its closest relatives in Europe 735
***Phellinus cinereus***
*Phellinus igniarius* and its closest relatives in Europe 735
***Phellinus contiguus***
Induction of precocious fruiting by a diffusible factor in the polypore *Phellinus contiguus* 325
***Phellinus eugeniae***
*Phellinus eugeniae* sp. nov. on *Eugenia jambos* in Taiwan 1527
***Phellinus ignarius***
*Phellinus igniarius* and its closest relatives in Europe 735
***Phellinus nigricans***
*Phellinus igniarius* and its closest relatives in Europe 735
***Phellinus populicola***
*Phellinus igniarius* and its closest relatives in Europe 735
***Phellinus trivialis***
*Phellinus igniarius* and its closest relatives in Europe 735
***Phialophora phaeophora***
Teleomorph-anamorph connections in Ascomycetes: the anamorphs of three species of *Chaetosphaeria* 585
***Phloeospora irregularis***
*Phloeospora irregularis* associated with lesions on *Rhus pendulina* 397
***Phloeospora mimosae-pigrae***
Mycobiota of the giant sensitive plant, *Mimosa pigra sensu lato* in the Neotropics 420
***Phoma***
*Phloeospora irregularis* associated with lesions on *Rhus pendulina* 397
***Phoma lingam***
Polymorphism of Tox$^{O}$ *Leptosphaeria maculans* isolates as revealed by soluble protein and isozyme electrophoresis 221
***Phomopsis quercella***
Fungal assemblages in stem and twig lesions of *Quercus robur* in Switzerland 534
***Phomopsis subordinaria***
Taxonomy, sexuality and mating types of *Diaporthe adunca* 1409
**Phosphate**
Translocation and metabolism of phosphate following absorption by the ascocarps of *Tuber melanosporum* and *T. aestivum* 167
**Phospholipids**
The use of phospholipid and neutral lipid fatty acids to estimate biomass of arbuscular mycorrhizal fungi in soil 623
**Phosphopeptidomannan**
Influence of aeration and [*rho*°] mutation on the structure of the cell walls of *Saccharomyces cerevisiae* and *S. diastaticus* 492
**Phosphorus metabolism**
Phosphorus translocation by saprotrophic basidiomycete mycelial cord systems on the floor of a mixed deciduous woodland 977
Nitrification, S-oxidation and P-solubilization by the soil yeast *Williopsis californica* and by *Saccharomyces cerevisiae* 200
***Phycomyces blakesleeanus***
Membrane-associated trehalase activity in *Phycomyces blakesleeanus* spores 1317
***Phyllachora grevilleae***
*Phyllachora* from Australia. Observations on *P. grevilleae* and two new species: *P. victoriensis* and *P. hakeicola* from *Hakea* 1261
***Phyllachora hakeicola***
*Phyllachora* from Australia. Observations on *P. grevilleae* and two new species: *P. victoriensis* and *P. hakeicola* from *Hakea* 1261
***Phyllachora melaleucae***
*Phyllachora* from Australia. Observations on *P. pseudostromatica, P. melaleuca* and a new species, *P. shivasii* from the host *Melaleuca* 1253
***Phyllachora pseudostromatica***
*Phyllachora* from Australia. Observations on *P. pseudostromatica, P. melaleuca* and a new species, *P. shivasii* from the host *Melaleuca* 1253
***Phyllachora sageretiae***
*Phyllachora* from Australia. *Phyllachora sageretiae* sp. nov. from *Sageretia hamosa* 554
***Phyllachora shivasii***
*Phyllachora* from Australia. Observations on *P. pseudostromatica, P. melaleuca* and a new species, *P. shivasii* from the host *Melaleuca* 1253
***Phyllachora victoriensis***
*Phyllachora* from Australia. Observations on *P. grevilleae* and two new species: *P. victoriensis* and *P. hakeicola* from *Hakea* 1261
**Phylogeny**
Phylogenetic relationship among several *Leptosphaeria* species based on their ribosomal DNA sequences 593
Comparison of nuclear ribosomal DNA sequences from *Alternaria* species pathogenic to crucifers 604
Phylogenetic diversity of yeast-producing basidiomycetes 1205
Phylogenetic analysis of *Aspergillus* sections *Cremei* and *Wentii*, based on ribosomal DNA sequences 1349
Gene phylogeny of the *Ganoderma lucidum* complex based on ribosomal DNA sequences. Comparison with traditional taxonomic characters 1489
***Phytophthora***
Ribosomal RNA sequence divergence within the Pythiaceae 1119
***Phytophthora cactorum***
A papillate *Phytophthora* species with specificity to *Rubus* 57
***Phytophthora capsici***
Evidence for the existence of two subpopulations in *Phytophthora capsici* and a redescription of the species 89
***Phytophthora cinnamomi***
Chitinolytic enzymes of pathogenic and ectomycorrhizal fungi 935
*In planta* immunolabelling of three types of peripheral vesicles in cells of *Phytophthora cinnamomi* infecting chestnut roots 1281
***Phytophthora citricola***
A papillate *Phytophthora* species with specificity to *Rubus* 57
***Phytophthora idaei***
A papillate *Phytophthora* species with specificity to *Rubus* 57
***Phytophthora infestans***
The development of sporangia of *Phytophthora infestans* 1175
***Phytophthora mexicana***
Evidence for the existence of two subpopulations in *Phytophthora capsici* and a redescription of the species 89
***Phytophthora syringae***
A papillate *Phytophthora* species with specificity to *Rubus* 57
***Picea abies***
*Pyrenochaeta ligni-putridi* sp. nov., a new coelomycete associated with butt rot of *Picea abies* in Switzerland 274
Abundance of *Tylospora fibrillosa* ectomycorrhizas in a South Swedish

spruce forest measured by RFLP analysis of the PCR-amplified rDNA ITS region 1425
***Pinanga***
*Guignardia candeloflamma* sp. nov. causing leaf spots of *Pinanga* spp. 110
***Pinus contorta***
Interactions between ectomycorrhizal and saprotrophic fungi on agar and in association with seedlings of lodgepole pine (*Pinus contorta*) 159
***Piriurella alternariata***
Some fossil fungal form-taxa from the Maastrichtian and Palaeogene ages 513
***Piromyces***
Demonstration of zoosporangia of anaerobic fungi on plant residues recovered from faeces of cattle 471
***Pisolithus tinctorius***
Variation in *Pisolithus* based on basidiome and basidiospore morphology, culture characteristics and analysis of polypeptides using 1D SDS–PAGE 1
Estimation of vacuolar pH in actively growing hyphae of the fungus *Pisolithus tinctorius* 549
Chitinolytic enzymes of pathogenic and ectomycorrhizal fungi 935
***Plagiostoma euphorbiae***
*Maculatipalma fronsicola* gen. et sp. nov. causing leaf spots on palm species in north Queensland with descriptions of related genera: *Apioplagiostoma* and *Plagiostoma* 727
***Pleochaeta indica***
New powdery mildews from India 374
**Pleomorphism**
A new pleomorphic ascomycete, *Calyptrozyma arxii* gen. et sp. nov., isolated from the human lower oesophagus 1239
***Pleospora herbarum***
Comparison of nuclear ribosomal DNA sequences from *Alternaria* species pathogenic to crucifers 604
Metabolite profiles of common *Stemphylium* species 672
***Pleospora tarda***
Metabolite profiles of common *Stemphylium* species 672
***Pleuricellaesporites excipularis***
Some fossil fungal form-taxa from the Maastrichtian and Palaeogene ages 513
***Pleurotus cystidiosus***
*Pleurotus cystidiosus* var. *formosensis* var. nov.: an unusual *Pleurotus* collection of subgenus *Coremiopleurotus* from Taiwan 1479
***Pleurotus ostreatus***
Mitochondrial DNA restriction fragment length polymorphisms and phenetic relationships in natural populations of the oyster mushroom, *Pleurotus ostreatus* 562
***Pollaccia mandshurica***
Further observations on *Pollacia mandshurica*, a pathogen of *Populus* spp. in China 983
**Polyamines**
Inhibition of polyamine biosynthesis in fungi 129
**Polyclonal antibodies**
Detection of the arbuscular mycorrhizal fungus *Scutellospora heterogama* within roots using polyclonal antisera 1225
**Polymerase chain reaction**
Differentiating homothallic *Volvariella* mushrooms by RFLPs and AP–PCR 333
Differentiation of *Colletotrichum* species responsible for anthracnose of strawberry by arbitrarily primed PCR 501
Phylogenetic analysis of *Aspergillus* sections *Cremei* and *Wentii*, based on ribosomal DNA sequences 1349
Specific detection of *Gaeumannomyces graminis* in soil using polymerase chain reaction 1385
Rapid identification of benomyl resistant strains of *Botrytis cinerea* using the polymerase chain reaction 1483
**Polysaccharides**
Isolation, purification and chemical characterization of alkali-extractable polysaccharides from the cell walls of *Talaromyces* species 69
**Population analysis**
Populations of *Fusarium* spp., in soil growing continuous winter wheat, and effects of long-term application of fertilizers and of straw incorporation 1391
**Population structure**
*Armillaria luteobubalina* population structure in horticultural plantings in Victoria, Australia 216
**Powdery mildews**
New powdery mildews from India 374
Ultrastructural studies of the effects of tetraconizole on the barley-powdery mildew host pathogen complex 799
**Presidential address**
The dynamics of hyphal growth 385
***Procambarus clarkii***
Physiological adaptation of an *Aphanomyces astaci* strain isolated from the freshwater crayfish *Procambarus clarkii* 574
***Prospodium tuberculatum***
The mycobiota of the weed *Lantana camara* in Brazil, with particular reference to biological control 769
**Protein secretion**
Effect of the microtubule inhibitor methyl benzimidazole-2-yl carbamate (MBC) on protein secretion and microtubule distribution in *Cladosporium cucumerinum* 43
**Protein synthesis**
Protein synthesis in *Metarhizium anisopliae* growing on host cuticle 1034
***Pseudocercospora casearigena***
Additions to *Pseudocercospora* from India 707
***Pseudocercospora diospyri-lycioides***
*Cercospora* species and similar fungi of South Africa 31
***Pseudocercospora ficicola***
Additions to *Pseudocercospora* from India 707
***Pseudocercospora gorakhpurensis***
Additions to *Pseudocercospora* from India 707
***Pseudocercospora guianensis***
The mycobiota of the weed *Lantana camara* in Brazil, with particular reference to biological control 769
***Pseudocercospora heterospermi***
Three new species of *Pseudocercospora* from the Nepal Himalaya 230
***Pseudocercospora himalayana***
Three new species of *Pseudocercospora* from the Nepal Himalaya 230
***Pseudocercospora plunkettii***
The mycobiota of the weed *Mikania micrantha* in southern Brazil with particular reference to fungal pathogens for biological control 343
***Pseudocercospora smilasis***
Three new species of *Pseudocercospora* from the Nepal Himalaya 230
***Pseudocercosporella herpotrichoides***
Bipolar heterothallism in *Tapesia yallundae* for the two varieties of the anamorph *Pseudocercosporella herpotrichoides* 76
Mating relationships between different pathotypes of *Tapesia yallundae*, the teleomorph of the eyespot pathogen *Pseudocercosporella herpotrichoides* 457
***Pseudofuscophialis lignicola***
*Pseudofuscophialis lignicola* gen. et sp. nov. and *Chaetosphaeria capitata* sp. nov. from wood in Taiwan 711
***Pseudospiropes indica***
Two new hyphomycetes from India 1004
**Psychrophilic fungi**
Grouping and identification of low temperature basidiomycetes using mating, RAPD and RFLP analysis 297
***Pterocarpus indicus***
RAPD characterization of *Fusarium oxysporum* associated with wilt of angsana (*Pterocarpus indicus*) in Singapore 14
***Puccinia canaliculata***
Mycobionts of the weed *Cyperus rotundus* in the state of Rio de Janeiro, with an elucidation of its associated *Puccinia* complex 407
***Puccinia lantanae***
The mycobiota of the weed *Lantana camara* in Brazil, with particular reference to biological control 769
***Puccinia spegazzinii***
The mycobiota of the weed *Mikania micrantha* in southern Brazil with particular reference to fungal pathogens for biological control 343
**Putrescine**
Inhibition of polyamine biosynthesis in fungi 129
**Pycnidial development**
Pycnidium ontogeny in *Coleophoma cylindrosporum* 693
***Pyrenochaeta ligni-putridi***
*Pyrenochaeta ligni-putridi* sp. nov., a new coelomycete associated with butt rot of *Picea abies* in Switzerland 274
***Pyrenophora japonica***
DNA homology between *Pyrenophora japonica* and *P. teres* 1098
***Pyrenophora teres***
DNA homology between *Pyrenophora japonica* and *P. teres* 1098
**Pythiaceae**
Ribosomal RNA sequence divergence within the Pythiaceae 1119
***Pythium***
Ribosomal RNA sequence divergence within the Pythiaceae 1119
***Pythium acanthicum***
Comparison of the mycoparasites *Pythium periplocum*, *P. acanthicum* and *P. oligandrum* 963

***Pythium aquatile***
Restriction analysis of amplified ribosomal DNA of *Pythium* spp. isolated from soilless culture systems 277
***Pythium aristosporum***
Mathematical methods to compare growth curves of *Pythium arrhenomanes* and eleven other *Pythium* species as an aid to their identification 19
***Pythium arrhenomanes***
Mathematical methods to compare growth curves of *Pythium arrhenomanes* and eleven other *Pythium* species as an aid to their identification 19
***Pythium coloratum***
Restriction analysis of amplified ribosomal DNA of *Pythium* spp. isolated from soilless culture systems 277
***Pythium irregulare***
A DNA probe for identification of *Pythium irregulare* in soil 579
***Pythium myriotylum***
Mathematical methods to compare growth curves of *Pythium arrhenomanes* and eleven other *Pythium* species as an aid to their identification 19
***Pythium oligandrum***
Comparison of the mycoparasites *Pythium periplocum*, *P. acanthicum* and *P. oligandrum* 963
Behaviour of zoospore cysts of the mycoparasite *Pythium oligandrum* in relation to their potential for biocontrol of plant pathogens 1417
***Pythium periplocum***
Comparison of the mycoparasites *Pythium periplocum*, *P. acanthicum* and *P. oligandrum* 963
***Pythium spinosum***
A DNA probe for identification of *Pythium irregulare* in soil 579
***Pythium splendens***
Continuing variation in successive asexual generations of *Pythium splendens* following sexual reproduction 1339
***Pythium ultimum***
Restriction analysis of amplified ribosomal DNA of *Pythium* spp. isolated from soilless culture systems 277
***Pythium volutum***
Mathematical methods to compare growth curves of *Pythium arrhenomanes* and eleven other *Pythium* species as an aid to their identification 19
***Qualea multiflora***
*Aplopsora hennenii* sp. nov., the first rust fungus recorded from Vochysiaceae 914
***Quercus robur***
Fungal assemblages in stem and twig lesions of *Quercus robur* in Switzerland 534
*Cryptosporiopsis radicicola* sp. nov. from roots of *Quercus robur* 663
**Race specificity**
Analysis of diverse isolates of *Colletotrichum lindemuthianum* infecting common bean using molecular markers 429
***Ramsbottomia asperior***
Notes on British species of *Lamprospora* and *Ramsbottomia* 1521
***Ramsbottomia crec'hqueraultii***
Notes on British species of *Lamprospora* and *Ramsbottomia* 1521
***Ramsbottomia lamprosporoidea***
Notes on British species of *Lamprospora* and *Ramsbottomia* 1521
***Ramularia grewiae-occidentalis***
*Cercospora* species and similar fungi of South Africa 31
***Ramularia zinniae***
*Cercospora* species and similar fungi of South Africa 31
**Random amplified polymorphic DNA**
RAPD characterization of *Fusarium oxysporum* associated with wilt of angsana (*Pterocarpus indicus*) in Singapore 14
Analysis of variation within *Microdochium nivale* from wheat: evidence for a distinct sub-group 103
Reliability of RAPD fingerprinting of three basidiomycete fungi, *Laccaria*, *Hydnangium* and *Rhizoctonia* 179
Grouping and identification of low temperature basidiomycetes using mating, RAPD and RFLP analysis 297
Analysis of diverse isolates of *Colletotrichum lindemuthianum* infecting common bean using molecular markers 429
Comparison of *Serpula lachrymans* isolates using RAPD PCR 447
Mating relationships between different pathotypes of *Tapesia yallundae*, the teleomorph of the eyespot pathogen *Pseudocercosporella herpotrichoides* 457
Physiological adaptation of an *Aphanomyces astaci* strain isolated from the freshwater crayfish *Procambarus clarkii* 574
Molecular relationships between *Ophiostoma ulmi* and the NAN and EAN races of *O. novo-ulmi* determined by RAPD markers 653
Intraspecific genetic diversity of *Chaunopycnis alba* detected by random amplified polymorphic DNA assay 681
Genetic analysis of homokaryons from a basidiome of *Laccaria bicolor* using random amplified polymorphic DNA (RAPD) markers 1361
Genetic variation among a world-wide collection of isolates of *Fusarium oxysporum* f. sp. *cubense* analysed by RAPD-PCR fingerprinting 1378
Discrimination between alfalfa and potato isolates of *Verticillium albo-atrum* using RAPD markers 1507
***Ranunculus glacialis***
*Sclerotinia glacialis* sp. nov., from the alpine zone of Switzerland 113
**Restriction fragment length polymorphism**
Restriction analysis of amplified ribosomal DNA of *Pythium* spp. isolated from soilless culture systems 277
Grouping and identification of low temperature basidiomycetes using mating, RAPD and RFLP analysis 297
Differentiating homothallic *Volvariella* mushrooms by RFLPs and AP–PCR 333
Analysis of diverse isolates of *Colletotrichum lindemuthianum* infecting common bean using molecular markers 429
Restriction fragment length polymorphism in the ribosomal RNA gene complex of isolates of the entomopathogenic fungus *Metarhizium anisopliae* 485
Mitochondrial DNA restriction fragment length polymorphisms and phenetic relationships in natural populations of the oyster mushroom, *Pleurotus ostreatus* 562
*Phellinus igniarius* and its closest relatives in Europe 735
Abundance of *Tylospora fibrillosa* ectomycorrhizas in a South Swedish spruce forest measured by RFLP analysis of the PCR-amplified rDNA ITS region 1425
**Review**
The dynamics of hyphal growth 385
***Rhizoctonia leguminicola***
Swainsonine production by *Metarhizium anisopliae* determined by means of an enzymatic assay 1078
***Rhizoctonia solani***
Reliability of RAPD fingerprinting of three basidiomycete fungi, *Laccaria*, *Hydnangium* and *Rhizoctonia* 179
Comparison of xylanase production by fungal pathogens of barley with special reference to *Bipolaris sorokiniana* 717
DNA probe specific to *Rhizoctonia solani* anastomosis group 8 745
The ability of the mycoparasite *Verticillium biguttatum* to infect *Rhizoctonia solani* and other plant parasites 997
Detection of *Rhizoctonia solani* AG-8 in soil using a specific DNA probe 1299
***Rhizoctonia tuliparum***
The ability of the mycoparasite *Verticillium biguttatum* to infect *Rhizoctonia solani* and other plant parasites 997
**Rhizomorphs**
Fractal geometry of diffuse mycelia and rhizomorphs of *Armillaria* species 81
***Rhizopus arrhizus***
Sorption of toxic metals by fungi and clay minerals 1429
***Rhus pendulina***
*Phloeospora irregularis* associated with lesions on *Rhus pendulina* 397
***Rhynchosporium secalis***
Comparison of xylanase production by fungal pathogens of barley with special reference to *Bipolaris sorokiniana* 717
**Ribosomal DNA**
Restriction analysis of amplified ribosomal DNA of *Pythium* spp. isolated from soilless culture systems 277
rDNA sequence analysis confirms the distinction between *Colletotrichum graminicola* and *C. sublineolum* 475
Phylogenetic relationship among several *Leptosphaeria* species based on their ribosomal DNA sequences 593
Comparison of nuclear ribosomal DNA sequences from *Alternaria* species pathogenic to crucifers 604
A molecular-morphotaxonomic approach to the systematics of the Herpotrichiellaceae and allied black yeasts 897
Genomic fingerprinting supports the separation of *Ophistoma piceae* into two species 1182
Phylogenetic analysis of *Aspergillus* sections *Cremei* and *Wentii*, based on ribosomal DNA sequences 1349
Abundance of *Tylospora fibrillosa* ectomycorrhizas in a South Swedish spruce forest measured by RFLP analysis of the PCR-amplified rDNA ITS region 1425
Gene phylogeny of the *Ganoderma lucidum* complex based on ribosomal DNA sequences. Comparison with traditional taxonomic characters 1489
**Ribosomal RNA**
Sub-repeat sequences in the ribosomal RNA intergenic regions of *Verticillium alboatrum* and *V. dahliae* 257
Restriction fragment length polymorphism in the ribosomal RNA gene

complex of isolates of the entomopathogenic fungus *Metarhizium anisopliae* 485
Ribosomal RNA sequence divergence within the Pythiaceae 1119
Phylogenetic diversity of yeast-producing basidiomycetes 1205
**Root fungi**
Mathematical methods to compare growth curves of *Pythium arrhenomanes* and eleven other *Pythium* species as an aid to their identification 19
*Cryptosporiopsis radicicola* sp. nov. from roots of *Quercus robur* 663
***Rosenscheldiella perseae***
Taiwan fungi: new species and new records of ascomycetes 917
***Rubus***
A papillate *Phytophthora* species with specificity to *Rubus* 57
A histological study of downy mildew (*Peronospora rubi*) infection of leaves, flowers and developing fruits of Tummelberry and other *Rubus* spp. 1311
**Rumen fungi**
Demonstration of zoosporangia of anaerobic fungi on plant residues recovered from faeces of cattle 471
***Russula virescens***
Observations on the phenology of ten fungal species in the subtropical forests at Xalapa, Mexico 54
***Saccharomyces cerevisiae***
Nitrification, S-oxidation and P-solubilization by the soil yeast *Williopsis californica* and by *Saccharomyces cerevisiae* 200
Influence of aeration and [*rho*$^o$] mutation on the structure of the cell walls of *Saccharomyces cerevisiae* and *S. diastaticus* 492
***Saccharomyces diastaticus***
Influence of aeration and [*rho*$^o$] mutation on the structure of the cell walls of *Saccharomyces cerevisiae* and *S. diastaticus* 492
***Sageretia hamosa***
*Phyllachora* from Australia. *Phyllachora sageretiae* sp. nov. from *Sageretia hamosa* 554
***Salix viminalis***
A comparative study of stem- and leaf-infecting forms of *Melampsora* rust on *Salix viminalis* 357
***Sambucus racemosa***
A *Microsphaera* on red elder (*Sambucus racemosa*) in Western Europe 323
**Saprotrophs**
Interactions between ectomycorrhizal and saprotrophic fungi on agar and in association with seedlings of lodgepole pine (*Pinus contorta*) 159
**Scanning electron microscopy**
Low temperature scanning electron microscopy of the ultrastructural development of zygospores and sporangiospores in *Mycotypha africana*, and the effects of cultural conditions on sexual versus asexual reproduction 539
Conidiogenesis and morphology of *Melanconium juglandinum* 1059
***Schizothyrium millettiae***
Taiwan fungi: new species and new records of ascomycetes 917
***Scleroderma tenerum***
Observations on the phenology of ten fungal species in the subtropical forests at Xalapa, Mexico 54
***Sclerospora graminicola***
Infection processes of *Sclerospora graminicola* on *Pennisetum glaucum* lines resistant and susceptible to downy mildew 317
**Sclerotia**
Liquid culture production of microsclerotia of *Colletotrichum truncatum* for use as bioherbicidal propagules 879
A rind-associated factor from sclerotia of *Sclerotinia minor* stimulates germination of a mycoparasite 1063
***Sclerotinia glacialis***
*Sclerotinia glacialis* sp. nov., from the alpine zone of Switzerland 113
***Sclerotinia minor***
A rind-associated factor from sclerotia of *Sclerotinia minor* stimulates germination of a mycoparasite 1063
***Sclerotinia sclerotiorum***
Heterokaryon formation and vegetative compatibility in *Sclerotinia sclerotiorum* 241
***Scutellospora heterogama***
Detection of the arbuscular mycorrhizal fungus *Scutellospora heterogama* within roots using polyclonal antisera 1225
**SDS–PAGE**
Variation in *Pisolithus* based on basidiome and basidiospore morphology, culture characteristics and analysis of polypeptides using 1D SDS–PAGE 1
**Seasonal fluctuations**
Observations on the phenology of ten fungal species in the subtropical forests at Xalapa, Mexico 54
**Secondary metabolites**
Biologically active secondary metabolites of endophytic *Pezicula* species 1007
***Selenophoma elaeocarpi***
A new species of *Selenophoma* on *Elaeocarpus* from India 1199
***Selenophoma eucalypti***
*Selenophoma eucalypti* and *Stigmina robbenensis* spp. nov. from *Eucalyptus* leaves on Robben Island 648
***Selenosporella***
A *Selenosporella* synanamorph associated with *Chaetendophragmia triangularia* 667
***Septocyta royi***
A new species of *Septocyta* from India 166
***Septoria mikania-micranthae***
The mycobiota of the weed *Mikania micrantha* in southern Brazil with particular reference to fungal pathogens for biological control 343
***Septoria nodorum***
Variation in responses of spores of *Septoria tritici* and *S. nodorum* to UV-B irradiation *in vitro* 1371
***Septoria tritici***
Variation in responses of spores of *Septoria tritici* and *S. nodorum* to UV-B irradiation *in vitro* 1371
***Serpula hymantioides***
Induction of transient thermotolerance in *Serpula lachrymans* and *S. hymantioides* following exposure to supraoptimal (sublethal) temperatures 1055
***Serpula lachrymans***
Comparison of *Serpula lachrymans* isolates using RAPD PCR 447
Induction of transient thermotolerance in *Serpula lachrymans* and *S. hymantioides* following exposure to supraoptimal (sublethal) temperatures 1055
***Sesquicillium microsporum***
Intraspecific genetic diversity of *Chaunopycnis alba* detected by random amplified polymorphic DNA assay 681
**Sexual reproduction**
Continuing variation in successive asexual generations of *Pythium splendens* following sexual reproduction 1339
***Sirobasidium intermediae***
Types of reproductive cell in *Exidia recisa* and *Sirobasidium intermediae* 1187
**Sirodesmins**
Polymorphism of Tox$^O$ *Leptosphaeria maculans* isolates as revealed by soluble protein and isozyme electrophoresis 221
**Soft rot**
Soft rot and multiple T-branching by the basidiomycete *Inonotus hispidus* in ash and London plane 813
**Soil fungi**
Mycogeography of *Fusarium* species in soils from tropical, arid and mediterranean regions of Australia 523
Survival and growth in culture of four *Fusarium* species in relation to occurrence in soils from hot climatic regions 529
Solubilization of insoluble metal compounds by soil fungi: development of a screening method for solubilizing ability and metal tolerance 987
Sorption of toxic metals by fungi and clay minerals 1429
**Somatic compatability**
*Armillaria luteobubalina* population structure in horticultural plantings in Victoria, Australia 216
***Sorghum vulgare***
*Neottiosporina sorghicola* sp. nov., associated with leaf lesions on *Sorghum vulgare* from China 831
**Spermidine**
Inhibition of polyamine biosynthesis in fungi 129
**Spermine**
Inhibition of polyamine biosynthesis in fungi 129
***Sphaerulina mimosae-pigrae***
Mycobiota of the giant sensitive plant, *Mimosa pigra sensu lato* in the Neotropics 420
**Spiders**
*Cordyceps cylindrica* and its association with *Nomuraea atypicola* in Tailand 809
**Sporangiole morphology**
Evidence for the existence of two subpopulations in *Phytophthora capsici* and a redescription of the species 89
**Sporangium formation**
Low temperature scanning electron microscopy of the ultrastructural development of zygospores and sporangiospores in *Mycotypha africana*, and the effects of cultural conditions on sexual versus asexual reproduction 539
The development of sporangia of *Phytophthora infestans* 1175

**Spore formation**
*In planta* immunolabelling of three types of peripheral vesicles in cells of *Phytophthora cinnamomi* infecting chestnut roots 1281
**Spore germination**
Blastoconidium production from conjugated basidial cells in *Cintractia* 140
Unusual germination of spores of *Arthrobotrys conoides* and *A. cladodes* 981
**Spore ultrastructure**
The occurrence of calcofluor and lectin-binding polysaccharides in the outer wall of arbuscular mycorrhizal fungal spores 1249
***Sporidesmium sclerotivorum***
A rind-associated factor from sclerotia of *Sclerotinia minor* stimulates germination of a mycoparasite 1063
***Sporisorium veracruzianum***
Taxonomic studies on Ustilaginales from Costa Rica 783
**Staining procedures**
Sensitive staining of fungal extracellular matrices using colloidal gold 567
***Stemphylium alfalfae***
Metabolite profiles of common *Stemphylium* species 672
***Stemphylium botryosum***
Metabolite profiles of common *Stemphylium* species 672
***Stemphylium herbarum***
Metabolite profiles of common *Stemphylium* species 672
***Stemphylium majusculum***
Metabolite profiles of common *Stemphylium* species 672
***Stemphylium sarciniforme***
Metabolite profiles of common *Stemphylium* species 672
***Stemphylium vesicarium***
Metabolite profiles of common *Stemphylium* species 672
***Stenella anamirtae***
Additions to *Stenella* from India 233
***Stenella hippocratiae***
Additions to *Stenella* from India 233
***Stenella meynae-laxiflorae***
Additions to *Stenella* from India 233
***Stenella pentatropidis***
Additions to *Stenella* from India 233
***Stenellopsis indica***
Two new hyphomycetes from India 1004
**Sterols**
Combined fatty acid and sterol profiles of *Heterobasidion annosum* intersterility groups S, P and F 1025
***Stigmatomyces biformis***
Laboulbeniales parasitic on British Diptera 841
***Stigmatomyces burdigalensis***
Laboulbeniales parasitic on British Diptera 841
***Stigmatomyces constrictus***
Laboulbeniales parasitic on British Diptera 841
***Stigmatomyces crassicollis***
Laboulbeniales parasitic on British Diptera 841
***Stigmatomyces entomophilus***
Laboulbeniales parasitic on British Diptera 841
***Stigmatomyces ephydrae***
Laboulbeniales parasitic on British Diptera 841
***Stigmatomyces geomyzae***
Laboulbeniales parasitic on British Diptera 841
***Stigmatomyces hydrelliae***
Laboulbeniales parasitic on British Diptera 841
***Stigmatomyces limosinae***
Laboulbeniales parasitic on British Diptera 841
***Stigmatomyces purpureus***
Laboulbeniales parasitic on British Diptera 841
***Stigmatomyces trianguliapicalis***
Laboulbeniales parasitic on British Diptera 841
***Stigmina robbenensis***
*Selenophoma eucalypti* and *Stigmina robbenensis* spp. nov. from *Eucalyptus* leaves on Robben Island 648
***Suillus variegatus***
Chitinolytic enzymes of pathogenic and ectomycorrhizal fungi 935
**Sulphur metabolism**
Nitrification, S-oxidation and P-solubilization by the soil yeast *Williopsis californica* and by *Saccharomyces cerevisiae* 200
**Swainsonine**
Swainsonine production by *Metarhizium anisopliae* determined by means of an enzymatic assay 1078
***Swampomyces armeniacus***
Ultrastructure of asci and ascospores of two mangrove fungi: *Swampomyces armeniacus* and *Marinosphaera mangrovei* 1465
**Synanamorph**
A *Selenosporella* synanamorph associated with *Chaetendophragmia triangularia* 667
**Systematics**
Taxonomy of *Fusarium*: characterization of *Fusarium avenaceum* subsp. *aywerte* and *Fusarium avenaceum* subsp. *nurragi* 287
The genus *Massarina*, with a description of *M. ebernea* and an annotated list of *Massarina* names 291
A molecular-morphotaxonomic approach to the systematics of the Herpotrichiellaceae and allied black yeasts 897
A re-appraisal of the systematic status of the ascomycete genus *Yoshinagaia* 1295
**Take-all disease**
Specific detection of *Gaeumannomyces graminis* in soil using polymerase chain reaction 1385
***Talaromyces***
Isolation, purification and chemical characterization of alkali-extractable polysaccharides from the cell walls of *Talaromyces* species 69
***Tapesia yallundae***
Bipolar heterothallism in *Tapesia yallundae* for the two varieties of the anamorph *Pseudocercosporella herpotrichoides* 76
Mating relationships between different pathotypes of *Tapesia yallundae*, the teleomorph of the eyespot pathogen *Pseudocercosporella herpotrichoides* 457
**Teliospore germination**
Noteworthy germinations of some Costa Rican Ustilaginales 853
Products of teliospore germination in *Tilletia hyalospora* 1247
**Teliospores**
Teliospores of *Hemileia vastatrix* 932
**TEM**
Ultrastructure of the ascus apical apparatus in species of *Cenangium*, *Encoelia*, *Claussenomyces* and *Ascocoryne* 187
**Temperature**
Mathematical methods to compare growth curves of *Pythium arrhenomanes* and eleven other *Pythium* species as an aid to their identification 19
Induction of transient thermotolerance in *Serpula lachrymans* and *S. hymantioides* following exposure to supraoptimal (sublethal) temperatures 1055
***Terfezia pfeilii***
Notes on the Kalahari desert truffle, *Terfezia pfeilii* 874
***Thecaphora haumani***
Noteworthy germinations of some Costa Rican Ustilaginales 853
***Thelebolus microsporus***
Intraspecific genetic diversity of *Chaunopycnis alba* detected by random amplified polymorphic DNA assay 681
***Thrips obscuratus***
*Thrips obscuratus* as a potential vector of *Botrytis cinerea* in kiwifruit 267
***Tilletia hyalospora***
Products of teliospore germination in *Tilletia hyalospora* 1247
***Tolypocladium cylindrosporum***
Intraspecific genetic diversity of *Chaunopycnis alba* detected by random amplified polymorphic DNA assay 681
***Torrubiella iriomoteana***
*Torrubiella iriomoteana* from scale insects in Thailand and a new related species *Torrubiella siamensis* with notes on their respective anamorphs 330
***Torrubiella siamensis***
*Torrubiella iriomoteana* from scale insects in Thailand and a new related species *Torrubiella siamensis* with notes on their respective anamorphs 330
**Transformation**
Genetic transformation of the ectomycorrhizal fungus *Paxillus involutus* by particle bombardment 557
**Translocation**
Translocation and metabolism of phosphate following absorption by the ascocarps of *Tuber melanosporum* and *T. aestivum* 167
Phosphorus translocation by saprotrophic basidiomycete mycelial cord systems on the floor of a mixed deciduous woodland 977
**Trehalase**
Membrane-associated trehalase activity in *Phycomyces blakesleeanus* spores 1317
***Trichoderma***
Effects of *Tricholoma* spp. and ammonium sulphamate on establishment of *Armillaria luteobubalina* on stumps of *Eucalyptus diversicolor* 957
***Trichoderma harzianum***
New components of the chitinolytic system of *Trichoderma harzianum* 441
***Trichoderma viride***
Sorption of toxic metals by fungi and clay minerals 1429

***Tuber aestivum***
Translocation and metabolism of phosphate following absorption by the ascocarps of *Tuber melanosporum* and *T. aestivum* 167
***Tuber melanosporum***
Translocation and metabolism of phosphate following absorption by the ascocarps of *Tuber melanosporum* and *T. aestivum* 167
Parasitism of non-host plants by the mycorrhizal fungus *Tuber melanosporum* 1367
***Tubeufia setosa***
Taiwan fungi: new species and new records of ascomycetes 917
***Tylopilus balloui***
Observations on the phenology of ten fungal species in the subtropical forests at Xalapa, Mexico 54
***Tylopilus subcellulosus***
Observations on the phenology of ten fungal species in the subtropical forests at Xalapa, Mexico 54
***Tylospora fibrillosa***
Abundance of *Tylospora fibrillosa* ectomycorrhizas in a South Swedish spruce forest measured by RFLP analysis of the PCR-amplified rDNA ITS region 1425
***Tyrannosorus***
A molecular-morphotaxonomic approach to the systematics of the Herpotrichiellaceae and allied black yeasts 897
***Tyrannosorus pinicola***
A molecular-morphotaxonomic approach to the systematics of the Herpotrichiellaceae and allied black yeasts 897
***Uberispora***
Some fossil fungal form-taxa from the Maastrichtian and Palaeogene ages 513
**Ultrastructure**
Ultrastructure of the ascus apical apparatus in species of *Cenangium, Encoelia, Claussenomyces* and *Ascocoryne* 187
Taxonomic evaluation of the myxomycete *Calonema luteolum* 311
Low temperature scanning electron microscopy of the ultrastructural development of zygospores and sporangiospores in *Mycotypha africana*, and the effects of cultural conditions on sexual versus asexual reproduction 539
Ultrastructural studies of the effects of tetraconizole on the barley-powdery mildew host pathogen complex 799
Ultrastructure of asci and ascospores of two mangrove fungi: *Swampomyces armeniacus* and *Marinosphaera mangrovei* 1465
**Ultraviolet irradiation**
Variation in responses of spores of *Septoria tritici* and *S. nodorum* to UV-B irradiation *in vitro* 1371
***Uncinula alvimii***
Three *Uncinula* species from the Brazilian cerrado and a key to South American *Uncinula* species 821
***Uncinula heringeriana***
Three *Uncinula* species from the Brazilian cerrado and a key to South American *Uncinula* species 821
***Uncinula peristrophes***
New powdery mildews from India 374
***Uncinula viegasii***
Three *Uncinula* species from the Brazilian cerrado and a key to South American *Uncinula* species 821
**Urediniomycetes**
Phylogenetic diversity of yeast-producing basidiomycetes 1205
**Ustilaginales**
Taxonomic studies on Ustilaginales from Costa Rica 783
Noteworthy germinations of some Costa Rican Ustilaginales 853
**Ustilaginomycetes**
Phylogenetic diversity of yeast-producing basidiomycetes 1205
**Vacuole pH**
Estimation of vacuolar pH in actively growing hyphae of the fungus *Pisolithus tinctorius* 549
**Variation**
Continuing variation in successive asexual generations of *Pythium splendens* following sexual reproduction 1339
**Vegetative compatibility**
Heterokaryon formation and vegetative compatibility in *Sclerotinia sclerotiorum* 241
***Venturia inaequalis***
Seasonal changes of sensitivities to sterol demethylation inhibitors in *Venturia inaequalis* populations 689
***Venturia mandshurica***
Further observations on *Pollacia mandshurica*, a pathogen of *Populus* spp. in China 983
***Verticillium alboatrum***
Sub-repeat sequences in the ribosomal RNA intergenic regions of *Verticillium alboatrum* and *V. dahliae* 257
The influence of isolation procedure on recovery of *Verticillium* species and *Colletotrichum coccodes* from colonised potato stems 942
Discrimination between alfalfa and potato isolates of *Verticillium alboatrum* using RAPD markers 1507
***Verticillium biguttatum***
The ability of the mycoparasite *Verticillium biguttatum* to infect *Rhizoctonia solani* and other plant parasites 997
***Verticillium dahliae***
Sub-repeat sequences in the ribosomal RNA intergenic regions of *Verticillium alboatrum* and *V. dahliae* 257
The influence of isolation procedure on recovery of *Verticillium* species and *Colletotrichum coccodes* from colonised potato stems 942
***Verticillium tricorpus***
The influence of isolation procedure on recovery of *Verticillium* species and *Colletotrichum coccodes* from colonised potato stems 942
**Vesicles**
*In planta* immunolabelling of three types of peripheral vesicles in cells of *Phytophthora cinnamomi* infecting chestnut roots 1281
**Vesicular–arbuscular mycorrhizas**
*Acaulospora koskei*, a new species of Glomales from Poland 237
***Vialaea insculpta***
Studies on fungi with isthmoid ascospores: the genus *Vialaea*, with the description of the new family Vialaeaceae 367
***Vialaea minutella***
Studies on fungi with isthmoid ascospores: the genus *Vialaea*, with the description of the new family Vialaeaceae 367
**Vialaeaceae**
Studies on fungi with isthmoid ascospores: the genus *Vialaea*, with the description of the new family Vialaeaceae 367
**Vinclozolin**
The fungistatic and fungicidal activity of vinclozolin against *Botrytis cinerea* 1041
**Virulence**
Physiological adaptation of an *Aphanomyces astaci* strain isolated from the freshwater crayfish *Procambarus clarkii* 574
**Virus-like particles**
Presence of double-stranded RNA and virus-like particles in *Botrytis cinerea* 1472
**Volatile compounds**
Characterization of volatile metabolites from 47 *Penicillium* taxa 1153
Chemosystematics of *Penicillium* based on profiles of volatile metabolites 1167
***Volvariella bombycina***
Differentiating homothallic *Volvariella* mushrooms by RFLPs and AP–PCR 333
***Volvariella volvacea***
Differentiating homothallic *Volvariella* mushrooms by RFLPs and AP–PCR 333
***Vonarxia***
*Fumagopsis complexa* sp. nov., a species with complicated conidial morphology 1450
**Water relations**
Water relations of some Zygomycetes isolated from food 1113
Effect of humidity on infection of rose petals by dry-inoculated conidia of *Botrytis cinerea* 1303
***Wiesneriomyces***
*Fumagopsis complexa* sp. nov., a species with complicated conidial morphology 1450
***Wilcoxina mikolae***
Properties of nitrate reductase from the mycorrhizal ascomycete *Wilcoxina mikolae* var. *mikolae* 1356
***Williopsis californica***
Nitrification, S-oxidation and P-solubilization by the soil yeast *Williopsis californica* and by *Saccharomyces cerevisiae* 200
**Wilt**
RAPD characterization of *Fusarium oxysporum* associated with wilt of angsana (*Pterocarpus indicus*) in Singapore 14
**Wood decay fungi**
Comparison of *Serpula lachrymans* isolates using RAPD PCR 447
***Xanthoria elegans***
DNA isolation from lichen ascomata 1321
**Xylanase**
Comparison of xylanase production by fungal pathogens of barley with special reference to *Bipolaris sorokiniana* 717

***Xylohyphites verrucosa***
Some fossil fungal form-taxa from the Maastrichtian and Palaeogene ages 513

**Yeasts**
Yeast communities associated with different plant resources in sandy coastal plains of southeastern Brazil 1047
Phylogenetic diversity of yeast-producing basidiomycetes 1205

***Yoshinagaia quercus***
A re-appraisal of the systematic status of the ascomycete genus *Yoshinagaia* 1295

**Zearalenone**
Mycobiota and mycotoxins in herbal drugs of Indian pharmaceutical industries 697

**Zoosporangia**
Demonstration of zoosporangia of anaerobic fungi on plant residues recovered from faeces of cattle 471

**Zoospore production**
The development of sporangia of *Phytophthora infestans* 1175

**Zygomycetes**
Water relations of some Zygomycetes isolated from food 1113

**Zygospore formation**
Low temperature scanning electron microscopy of the ultrastructural development of zygospores and sporangiospores in *Mycotypha africana*, and the effects of cultural conditions on sexual versus asexual reproduction 539
